## FROM THE ORGANIZERS DESK...

### Greetings

A hearty welcome to all our valued Exhibitors, Partners, Speakers, and Delegates at the **13<sup>th</sup> Edition of DIDAC INDIA** - Asia's Largest and India's only Exhibition & Conference dedicated to the Education & Skills Sector.

As the world is increasingly swept by new techs, there are fundamental changes not only in the way we produce and consume, but also the way we conduct our lives. Navigating this VUCA world demands a totally new architecture of education, underpinned by a different philosophy and values.

Going Global is not just a 'good to have but is a must have'. And simultaneously as a proud nation with an unbroken lineage of knowledge production over three millennia, only an education that is rooted in its social milieu and nurtured by its culture could gain currency. India Didac has always been at the forefront in acting as a bridge between these two vital constituents. Getting Global to India and enabling the best of India to go global.

As the world we live in changes dramatically, how, and what we teach in our education system will also be reshaped to keep up to date with the growing demands of the 21st century. All facets of education; including curriculum, technology, learning environments, assessment, pedagogy, and community must evolve.

With diverse issues like climate change, global conflicts, uneven development, it is imperative that educators rise and respond. The role of educators now takes prominence in shaping the future as they must also adapt and grow to blend the past strengths with the future requirements to ensure a smooth transition. It is their responsibility to empower students to take risks, be innovative and seize all opportunities that comes their way. Leaders of Institutions and Educators of the future will play the role of analysts, planners, collaborators, facilitators, synthesisers, problem-solvers, and researchers.

Didac India endeavours to meet these growing demands by showcasing the new initiatives and developments in education, technology, resources, and solutions. It as an unparalleled platform for exchange of ideas on education & skill policies and implementation of best practices.

We are honoured to have, every year, the presence of Education & Skill Ministers of select Asian countries and Indian States, distinguished educators, and leaders from across India and abroad, acknowledging this event as an important international platform for the exchange of ideas.

We thank our Indian and International partners, Ministries and educational bodies for their constant support and confidence.

We also appreciate all individuals and companies for supporting the movement #UnitingForEducation and making Didac India the largest gathering for the education sector.

And as we welcome Landesmesse Stuttgart GmbH as our partner from the next edition of Didac India, we are sure the global expertise, connections, and values that they would bring to the event would make our future better, stronger together.

**Team India Didactics Association**

Messe Stuttgart  
Key to Markets

**Dear Esteemed Participants and Guests,**

Education is the cornerstone of progress, a guiding light that illuminates the path towards a brighter future. It is a universal truth that investing in education today yields immeasurable benefits for generations to come. As we gather here for DIDAC India 2023, we reaffirm our commitment to the fundamental belief that education is key for overall growth and development.

In recent years, India has demonstrated its dedication to advancing education through remarkable strides in the Education Technology (Edtech) sector. The country's innovation and adaptability in embracing digital solutions for education have been awe-inspiring. These developments not only reflect India's unwavering commitment to equipping its learners for success but also position the nation as a global leader in educational innovation.

I am thrilled to announce that Messe Stuttgart India will take over the organisation of this prestigious event starting from 2024. This transition represents a new chapter in the journey of DIDAC India, and we are poised to add a wealth of expertise and experience to this event. For many years, we have successfully organised 'didacta' in Stuttgart, a leading education trade fair in Europe, as well as 'Education +' in China and the newly launched 'didacta Asia' in Bangkok. This experience equips us with a unique perspective on global educational trends and best practices, which we are excited to share with the Indian education community.

As we look to the future, we anticipate numerous benefits for both exhibitors and visitors at 'DIDAC India.' With our extensive background in organising educational events worldwide, we aim to enhance the experience, broaden the horizons, and foster meaningful connections for all participants. We believe that this event will serve as a hub for knowledge exchange, collaboration, and the discovery of innovative solutions that will shape the education landscape in India.

I take this opportunity to invite you to embrace this remarkable journey with us. Together, we will continue to champion the cause of education, foster sustainable growth, and create a better tomorrow for all. I extend my warmest wishes to all participants and visitors, and I am confident that 'DIDAC India' will continue to shine as a beacon of educational excellence.

Warm regards,

**Mr. Roland Bleinroth**  
Managing Director  
Landesmesse Stuttgart GmbH

The State Government of Victoria, Australia welcomes the opportunity to showcase our wealth of expertise in learning and didactics at DIDAC INDIA 2023.

Melbourne has a reputation as a world leading educational hub, and we are delighted to work again with the Indian Didactics Association to showcase the best of Victorian learning and edtech solutions and to share and workshop experiences in India and Australia to achieve better learning and life outcomes.

Victoria's strength in education technology is borne from our state's longstanding expertise in educational excellence from early childhood to school to vocational and higher education and beyond. Victoria has a vibrant and collaborative EdTech clusters of EdTech companies, globally recognised education institutions and industry partners. The sector is thriving and leading education innovation in online program management, assessment systems, and upskilling for new technology-driven work futures.

We are also home to strong cluster of research institutes focused on the K-12, post-secondary and the VET segments. These organisations also act as think tanks to assist governments, institutions, and educators to provide data-based insights to enhance and shape the future of EdTech solutions.

We have current success stories in India servicing all education levels, and at the same time, we are seeing leading Indian companies collaborate with Victorian educational institutions and related companies in Australia.

This is an exciting time and there are great strengths in sharing experiences and working together to achieve great learning outcomes.

On behalf of our State Government Office of Victoria in Bengaluru and our Victorian companies, I extend a warm welcome to all visitors and our friends at India Didactics Association. We look forward to welcoming you to our stand and to meeting you during DIDAC INDIA 2023.

**Ms. Michelle Wade**  
Commissioner for South Asia  
State Government of Victoria, Australia

Indian and British schools and colleges share and enjoy many educational values including an emphasis on high standards, trusted quality, intellectual rigour and practical ingenuity.

Thanks to Didac India's focus on developing India's premier education exhibition and conference we have seen the development of a long-standing and positive relationship between Indian education policy-makers, decision-makers and leaders and British educational suppliers.

Our mutual dedication to excellence and innovative learning techniques has resulted in many long and successful partnerships between UK education companies exhibiting here at Didac India and Indian educational establishments.

Last year's signing of the landmark UK-Indian Education MOU means A-levels and their equivalents, undergraduate and postgraduate degrees will now be recognised in India – and even stronger reason for India-UK education collaboration.

My organisation BESA represents 400 of the very best of the UK's education resource providers. BESA travels the globe with our leading companies to meet school and college leaders around the world to share ideas and examples of British education products and services but we are always made to feel most welcome in India and for this reason I am delighted to be able to welcome you to our British Pavilion at Didac India 2023 and look forward to a positive dialogue and discussions on your institution's resource needs.

**Julia Garvey**  
Deputy Director-General  
British Educational Suppliers Association

**didacta**

### **Welcome to the German Pavilion at the DIDAC INDIA 2023**

It is my pleasure to welcome you to the German Pavilion at the DIDAC INDIA 2023. The exhibition and its conference is the exclusive event for the education industry in India and the largest in the entire region. Since its start in 2009 leading German companies of the education industry have always participated at the show at alternating venues. German companies showcase their products at the German Pavilion covering the entire spectrum of lifelong learning, from early childhood education to further education as well as vocational education and training.

The German Federal Ministry for Economic Affairs and Climate Action (BMWK) as well as the Association of the German Trade Fair Industry (AUMA) are supporting this group participation, giving German companies the possibility to present their excellent products and to offer their renowned services to key players and decision makers from all over the region. They are inviting you to discover their state of the art equipment and solutions "made in Germany" for all levels of successful lifelong learning at the German Pavilion. Didacta - the Association of the German Education industry and the initiating association for the German joint stand is accompanying the German delegation and providing professional advice and support.

On behalf of the German delegation I extend a warm welcome to all visitors and wish everybody a successful show, exciting impressions and inspiring conversations on the conference.

**Dr. Theodor Niehaus**

President

Didacta – Association of the Education Industry

17th - 19th October 2023  
Bengaluru, India

## ACADALLY

Address : I - 1710, SF, CR Park,  
New Delhi - 110019, Delhi  
India

Website : [acadally.com](http://acadally.com)

### Company Description:

AcadAlly, a pioneering AI-powered tech solution aims to revolutionize education by harnessing the power of data-driven analytics and empower students and educators globally.

At the heart of AcadAlly's approach is the seamless integration of pedagogy, curriculum, and technology.

Acadally's innovative instructional strategy shifts the classroom from passive to active learning and we offer out-of-class preparation through scaffolding techniques. Using AI, AcadAlly aims to recognize patterns in data, automate actions and guide educators in understanding how to advance educational goals while evaluating and limiting the risks involved.

Teachers benefit from AcadAlly's comprehensive digital curriculum program, encompassing structured learning outcomes, well-organised lesson plans, and integrated assessments.

AcadAlly's learning design engine, LEAP, creates a 3-Dimensional network of all the learning units in a knowledge domain. The features of each user are collated based on this network, which then generates a cognitive fingerprint for them. This, in turn, allows the teachers to tailor subsequent steps in alignment with the requirements of each student, thereby minimising the reliance on a third party. Besides, the detailed reports based on the behavioural pattern of each student allow parents to monitor student performance effectively and keep them involved in the learning journey of their child.

## ACADEMIA BY SEROSOFT

Address : Serosoft Solution Pvt. Ltd.

## ADVANCED CLOTHING CONCEPTS AND BRANDS - SCRIBBLES

Address : SLV Noble Embassy, #3A, 3rd Floor,  
145 Nava India Road, Peelamedu,  
Coimbatore - 641004, Tamil Nadu  
India

Website : [advancedclothingconcepts.com](http://advancedclothingconcepts.com)

### Company Description:

The story of ACC started off when a team of young entrepreneurs envisioned mass customization in school uniforms, an area which never saw any development since independence and we called it Scribbles. Customized products score a lot more populace as they symbolize originality. The philosophy of ACC with respect to scribbles was straightforward, to grow as a clothing associate to various institutions. Our initial focus was sports uniforms for schools, as at that time they were plain and monotonous, we wanted to change the look and feel of the sports uniforms; make it exciting.

Scribbles have grown to become the pioneer in school uniforms. The design is truly our focal point. The products speak for themselves, with the intricate detailed designing and contemporary style. The designs we put out to the various schools do not look like your usual school uniforms. The team is a powerhouse with the right attitude where our talented team of designers take on an extensive selection of fabrics, colour palettes, their varied experience and expertise to turn the school's vision and our ideas into reality.

Beretena Agrahara, Next to Play Factory Hosur Main Road,  
Post, Electronic City,  
Bengaluru - 560100, Karnataka  
India

Website : [biboxlabs.com](http://biboxlabs.com)

**Company Description:**

Bibox Labs, based in Bangalore, has over a decade of experience in educational design and development, leaving a significant mark on the industry. We've impacted 1000+ schools by introducing award-winning Design and Innovation spaces, transforming the learning experience.

These innovative spaces engage students' senses, fostering over a million unique innovations, a testament to our approach's effectiveness. We've also established maker spaces and tinkering labs in 1000+ schools, mentoring 500,000+ students. Notably, we're proud of India's largest Design and Innovation Hub (25,000 sq. ft.) at Mysore University, backed by the Department of Science and Technology (DST) and the Department of Scientific and Industrial Research (DSIR) under the Government of India.

Our international recognition includes awards like the Red Dot Award (2023, Germany), the Good Design Award (2019, Tokyo, Japan), and the India Design Award (2019). Our Founder, Mr. Sandeep Senan, was named a Top 10 Innovator by the Massachusetts Institute of Technology (MIT) Tech Review & MINT in 2017.

Complementing our journey, we offer various educational tools and programs, including Maker spaces, cutting-edge products with video curriculums, LMS, and playful coding platforms. These empower educators and learners in the ever-evolving educational landscape.

## BLIX EDUCATION PVT. LTD.

Address : H 231, Ansa Industrial Estate, Saki Vihar Road,  
Saki Naka, Andheri East,  
Mumbai - 400072, Maharashtra  
India

Website : blix.in

### Company Description:

Blix Robotix arose from the stables of Zephyr Toymakers Pvt. Ltd., one of the largest indigenous toy manufacturing companies. Zephyr owns brands, such as MECHANIX and RED Bus Toys and has also partnered with Disney and Oxford University in the past. We noticed the need when we realized that there was a huge discrepancy between what the goal of the formal education system is and what truly the secrets of success in the 21st century are. Blix Robotix is committed to providing a child with the right tools, content, and challenging environment where real learning occurs. With more than 25 years of experience in the STEAM kits field and being one of the largest suppliers to robotics institutes, we used our experience to build the perfect offering that would excite a child in exploring their creativity and curiosity while having fun.

### Reimagining EdTech Transformation in India with AWS

Amazon Web Services (AWS) is on a mission to accelerate the digital transformation of education in partnership with the full education community, including learners, educators, and administrators. Over 14,000 education institutions of all sizes globally - from primary schools through higher education - use AWS to provide flexible and affordable technology solutions that support their core mission and strategic institutional priorities.

#### How is AWS helping schools & higher education institutions

AWS Cloud is enabling schools, colleges, and universities to embrace digital transformation with cost-effective, scalable, and secure infrastructure. With AWS, they can support teaching and learning, connect the campus community, and make data-driven decisions to save money and resources.

#### Improve the student experience

Create new ways to communicate and personalize engagement with students.

- Access applications and desktops 24/7—anytime, anywhere
- Power virtual computer labs, intelligent digital assistants, and extended reality environments
- Unlock AI and machine learning (ML) capabilities

#### Modernize & secure the campus

Increase agility, data security and compliance, and lower costs with AWS.

- Modernize administrative operations and student information systems (SIS)
- Scale capacity and resources as needed and lower costs with pay-as-you-go pricing
- Minimize downtime and data loss with fast and reliable disaster recovery

#### Turn data into wisdom

Optimize the entire lifecycle of institutional data and use analytics to make data-driven decisions.

- Store, manage, and unlock insights from even the largest amounts of data
- Access sophisticated capabilities to support real-time streaming
- Share data across platforms for a comprehensive view of student performance

#### Empower researchers & accelerate research

Accelerate research timelines by spending less time on infrastructure and more time on science.

- Easily launch secure, complex compute resources within minutes
- Access to open datasets, funding, and training

## CESIM OY

Address : Cesim Oy, Finland  
Kalevankatu 16,  
Helsinki 00100  
Finland

Website : cesim.com

### Company Description:

Cesim is the world's leading provider of multilingual, multidisciplinary business simulations that help educators improve student engagement and employability. Our simulations put responsible management into action as an integrated part of business strategy and reward long-term value creation. Schools in more than 40 countries are already improving their learner success with Cesim.

Cesim was born 25 years ago from the realization that business and management was learned in silos. Learners seldom got to experience competitive dynamics, the interactions between different functions, or what it means to cope with uncertainty. The theoretical foundation of the business simulation methodology is experiential learning, and our mission is to make this available and affordable to the widest possible audience with relevant content.

**DADB - GERMAN ACADEMY OF DIGITAL EDUCATION GmbH**

Address : Nuthedamm 9,  
Ludwigsfelde, Brandenburg 14974  
Germany  
Website : dadb.com

**Company Description:**

DADB is a producer of unique online courses in engineering, offering a learning experience that excites, stimulates, and makes complex knowledge accessible, through innovative teaching formats, relying on the application of state-of-the-art technologies.

We digitalize content for higher education and TVET, where Germany enjoys an unparalleled global reputation. Currently we are focusing in the following subjects:

- 5G Technology,
- Industry 4.0 / Internet of Things (IOT),
- Electromobility,
- Renewable Energies, especially Solar, Wind and Hydrogen

Our vision is that young people all over the world, regardless of their status, should have the chance to qualify for social challenges but also for the labor market by having the opportunity to actively and sustainably shape their environment based on employment-related skills.

Our learning system is aimed at universities and their students to bridge the existing gap between academic degrees and industry requirements. For that reason, we combine academic teaching excellence with insights into industrial research and development. Our productions are a unique blend of lectures given by German professors and industry experts, animated presentations, 2D and 3D-infographics, along with XR-elements.

## DEEKSHA VEDANTU LEARNING CENTER BY KNOWVO

Address : Novus Learning Private Limited  
Ground Floor, 163/B, 6th Main, 3rd Cross Rd,  
3rd Phase, J. P. Nagar,  
Bangalore - 560078, Karnataka  
India

Website : novuslearning.in

### Company Description:

Knowvo is an EdTech Marketplace platform that aggregates EdTech products and services across 20+ categories from renowned EdTech companies, to offer a one stop EdTech solution for schools, students, and parents. Categories include Pedagogy & Content, Experiential Learning, STEM Learning, Extracurricular Learning, Co-curricular Learning, Health and Wellness, and School Ecommerce among others.

Using the power of AI and our breakthrough collaboration model where schools are at the center, Knowvo will elevate the overall learning experience by infusing the human element of personalization and curation in EdTech at scale. Beyond this, the Marketplace will deliver unmatched benefits such as a single sign on for all products on the platform, reduced search cost, consistent UI & UX and products at significantly less than Market Price.

Schools and their stakeholders (students, teachers, parents) are onboarded to the platform with a base platform that comprises a comprehensive School Management System (LMS and ERP). The School Management System includes modules for pre-admission, admission and student onboarding, attendance and academic management, finance and accounting (fee management, payroll etc.), online classrooms, integrated communication management and more.

## EARLY CHILDHOOD ASSOCIATION (ECA)

Address : Office No. 4107, 2nd Floor, Rustomjee Ease Zone,  
Sundar Nagar, Malad (W),  
Mumbai - 40006, Maharashtra  
India

Website : [eca-aper.org](http://eca-aper.org)

### Company Description:

Let Childhood Be The Right Of Every Child, Everywhere... With this dream and vision we have formed the Early Childhood

The Early Childhood Association is that one stop connection needed by all for the enrichment, networking, awareness and advocacy of childhood and everything that affects it. ECA aims to help professionals, teachers, people who deal with children through their work in balwadis, day care centres, rural crèches, teacher training colleges and entrepreneurial network (basically anyone who contributes directly or indirectly into the caring of a child) and be able to provide them with resources of every sort. This could range from information, latest research, training and ideas and perhaps solutions and counseling.

Early Childhood Association has brought together preschool, kindergarten, primary teachers & administrators, caregivers, program directors, and individuals working with & for families, to promote quality care and education for young children. Our 48000+ members include child care facilities, Early Childhood Educators and Child Care Assistants employed in child care centres, Family Child Care Providers, Parents, Doctors and professionals who share an interest in high quality early learning and care. Our memberships range from School Members, Individual Members, Parent Members, Patron Principals, Corporate Members, NGO Members and Advisory Members.

APER- Association for Primary Education and Research (APER), is a body created by the Early Childhood Association to ensure that care and education of children from 6 to 10 years have a common goal, a smooth transition and ensures life long success for all children. APER aims to bring together all stakeholders involved in the education of children from 6 to 10 years.

Learning, researching, reflecting and leading is our motto and our goal is to ensure that every primary school teacher in our country gets access to the latest research, training, and publications that will help them create classrooms where children learn in a stress-free environment created with the best from local and global education practices. We work to encourage research and reflective study in primary education and want our primary education to be stress-free and have a smooth transition for children from early years to primary years in school.

## EDUZO

Address : Your Doc India Private Ltd.  
28b Pillayar Kovil,  
Chennai - 600096, Tamil Nadu  
India

Website : eduzo.com

### Company Description:

We are excited to present the world's first Metaverse lab, tailored specifically for pre-schoolers from pre-KG to 3rd grade. In this innovative environment, children become game characters without the need for devices, using motion capture, AI, and augmented reality. Their movements are directly mirrored by the game characters, making learning interactive and fun.

Our play store features a variety of games, all aligned with the National Curriculum Framework. Teachers can effortlessly craft their own games by filling out straightforward forms in just two minutes.

Notably, we offer Artificial Intelligence (AI)-based games like a conversational game where kids can interact with a scientist and learn, an AI teacher game for learning directly from AI, and a debate game where AI assesses their performance.

Our vision is to transform learning into an enjoyable experience by incorporating gamified learning. Additional features include instant certificate generation and enabled report cards, streamlining the administrative process.

Ultimately, our Metaverse lab not only revolutionizes the way children learn but also empowers teachers to create personalized educational content effortlessly. Together, let's make learning fun and engaging for the next generation.

## EVERYBODY COUNTS

Address : Bowbarrie,  
Laurenckirk, Aberdeenshire AB30 1ER  
United Kingdom

Website : [everybodycounts.org.uk](http://everybodycounts.org.uk)

### Company Description:

Everybody Counts, have developed a complete Primary online learning program/curriculum for ages 3-11, using the Maths Mastery approach which is proven to be the best method of teaching Maths. The program is designed in modular format to fit with any Curriculum, and will support students allowing them to progress rapidly. It features an interactive interface that can be utilized by teachers at the front of the classroom or by individual students on 1-1 devices. Each lesson is engaging, interactive, and fosters the development of leadership skills and life skills essential for future employability. Embracing principles of inclusive education, our program incorporates diverse characters, neuro-diverse friendly fonts, and the ability to use local currencies. It can be translated into any language, ensuring accessibility for students/teachers/parents worldwide. Complementing our differentiated CPD provided to support schools and teachers, we offer comprehensive lesson plans, saving them countless hours of preparation time and empowering them to deliver world-class mathematics lessons. Together with a parents support program which enables children to receive additional assistance at home, whilst practicing “real life” skills. By combining these resources and ensuring the school/teachers/parents work together, we enable students’ to deepen their mathematical knowledge and understanding while improving overall outcomes.

Suite 2, 107 Union Rd, Surrey Hills,  
VIC 3127  
Australia

Website : mykensho.org

### Company Description:

Global Education Solutions Pty Ltd (GES) is the only strategic consulting organisation in education which also provides configurable, scalable technology solutions with measurable impact. GES works across all sectors– schools, higher/vocational education with clients that include governments, employers, academic and non-profit organisations. GES's flagship edtech solution, mykensho, is a globally unique adolescent well-being, transferable skills & career learning program that prepares students in Grades 6-12, for success in their study, life and work. Through a blended project based learning approach, facilitated by teachers, students progressively develop competencies to navigate change and thrive in uncertainty. This is also aligned to NEP 2020 and NCF and is being implemented in Government and Private Schools in urban and rural India, as part of school curriculum.

GES also set up a not-for-profit entity, the Indian Career Education and Development Council with support from the Australian Government (Australia India Council) to serve as the professional body for all career development professionals including school teachers, learning and development professionals and trainers.

Rosanna Level 1, 76/80 Turnham Ave,  
Rosanna, VIC 3084  
Australia

Website : [ihna.edu.au](http://ihna.edu.au)

### Company Description:

We are the Institute of Health and Nursing Australia (IHNA), a healthcare training provider born out of the desire to create jobs and improve people's lives. Since 2007 we've been dedicated to giving the best learning experience to over 22,000 students for a satisfying career in nursing, health, and community services.

"Education for Employment"

"IHNA and IHM are committed to delivering education and training programs that equip our students with the skills and knowledge needed to be leaders in the healthcare industry. We prioritise creating strong partnerships with industry and society and measure our success by the employment outcomes of our graduates. Our commitment to innovation, excellence, and caring benefits our stakeholders, including students, staff, industry, service providers, and the community".

We're eager to share our deep and relevant expertise of the industry with students like you so that you can gain from our knowledge and apply it directly to your growth. We're particularly proud of the laboratories and facilities we have in our campuses across Melbourne, Sydney, Perth, and India. They're equipped with modern technologies to simulate real scenarios.

Our passion for caring stems from healthcare, but it translates to how we approach student welfare, administrative, and educational support. You will also find that IHNA goes the extra mile to ensure that your experience is positive from start to finish. Our support extends to providing research opportunities for you to push the boundaries of the healthcare industry.

Ultimately, we're healthcare experts and trainers dedicated to career-focused learning and real-life outcomes so that more people can live better lives working in healthcare.

Health Careers International (HCI) specializes in providing quality, careers focused education to develop the careers of healthcare professionals around the world. HCI's commitment to quality and work-ready education delivered utilizing the latest collaborative tools has allowed it to become one of Australia's leading educators for the healthcare sector. Being part of HCI Australia allows us to provide facilities and laboratories with the latest technology for simulations and enhanced practical learning during your time at IHNA. Our support extends to providing vocational opportunities for students to directly lead into a career that supports the growing needs of the industry.

## HEI SCHOOLS

Address : Vuorikatu 16 A 9,  
6th Floor,  
Helsinki, Uusimaa 00100  
Finland

Website : heischools.com

### Company Description:

HEI Schools (Helsinki International Schools Group) was founded in a partnership with the University of Helsinki. Our play- and research based syllabus is based on the Finnish national curriculum for early childhood education (ECE) and the latest research on cognitive development of children. HEI Schools concepts allow ECE operators around the world to implement Finnish style pedagogy effectively.

HEI Schools Learning Center is a full Finnish kindergarten / preschool concept including e.g. comprehensive teacher training, curriculum with lesson plans, space design and marketing support – and the right to use the HEI Schools brand. There are about 25 Learning Centers around the world and more than that being built.

For kindergartens running their own brand we provide HEI Schools Teacher Toolkit subscription service with a curriculum with Finnish ECE principles and practices including 2 daily activity plans per age group. There are more than 100 schools around the world who use our HEI Toolkit as a basis for their syllabus.

We offer teachers all over the world the possibility to be trained in the Finnish ECE by joining our Diploma Program. Completing the program takes 6- 18 months but you can do all the learning at your own pace.

## IBLÜM

Address : Devhaus Technologies Inc.  
45 Sheppard Avenue East,  
Suite 306,  
Toronto, ON M2N 5W9  
Canada

Website : iblum.co

### Company Description:

What if everyone had a personal coach for whatever they wanted to learn? That's the idea behind iBlüm. From early years education to executive training, we take an expert's competency and curriculum and scale it to an unlimited number of users. We do this by personalizing learning content to every individual's needs and strengths in order to achieve better learning outcomes. At the heart of iBlüm's transformational learning platform is our unique, AI-powered Personal Learning Engine, which makes learning more individual, collaborative, measurable and, ultimately, accessible – to all. iBlüm's proprietary algorithms surface insights into each learner's development, and rolls these up into cohort-based insights the teacher can use to get the most developmental impact.

## ICAN STUDY

Address : Australia  
Website : icanstudy.com

### Company Description:

iCanStudy offers the world's first cognitive re-training program with AI feedback and reporting to enhance self-regulated higher-order thinking skills to empower high school, university and professional learners to become fundamentally "smarter". This hybrid program supports all curricula and only requires an additional investment of 20 minutes every three days from the learner. Our program has already benefited 10,000+ paid learners in 120+ countries, delivering remarkable enhancements in academic performance, learning efficiency, long-term recall, knowledge application, learner confidence and motivation, unprecedented in both commercial and research settings.

Our success results from merging cutting-edge research in learning sciences with a decade of real-world application, observation, and refinement. The program is a game-changer for educators and institutions to equip students with 21st-century learning skills, as iCanStudy heals the ineffective learning 'wound' at the root cause. iCanStudy is backed by Google and is in a joint research project with the Education Faculty at Monash University.

Bandra Kurla Complex,  
Mumbai - 400051, Maharashtra  
India

Website : [investment.nsw.gov.au](http://investment.nsw.gov.au)

### Company Description:

Investment NSW facilitates economic development and attracts investment, reinforcing New South Wales (NSW) as the most desirable place in the world to visit, study, invest and do business. It is our role to deliver economic and social benefits for the people of NSW by growing the state's economy. This work helps to make NSW a prosperous, inclusive and a thriving global hub for business, innovation, talent, visitors and residents.

We achieve this by targeting opportunities aligned to our key pillars: Boosting research and development, Fostering start-ups and innovations, Growing priority sectors and precincts, Attracting global talent and investment and Exporting to the world. With 6 public universities in the world's top 200, the state is also Australia's top destination for international students, including tens of thousands from India. Diverse climatic zones range from pristine beaches to alpine regions and agricultural zones support production of many safe, high-quality food and beverage products. NSW's resilient economy has been a driver of Australia's growth for decades, funding the largest current infrastructure spending program at AU\$97 billion.

## JOBS IN EDUCATION & AGORAE

Address : Anandpush JobTech Private Limited  
609, Adventz Infinity@5, BN Block,  
Sector V, Bidhannagar,  
Kolkata - 700091, West Bengal  
India

Website : [jobsineducation.net](http://jobsineducation.net)

### Company Description:

A real life need led to the inception of Jobs in Education. The thought of a portal for teaching and non-teaching jobs in India came after experiencing challenges of finding relevant candidates for all the teaching and non-teaching roles in the education sector. All education institutes are always in the process of hiring teachers to meet their ever growing needs. With the job seekers in the education sector getting lost in the generic job market, we thought of bringing a comprehensive portal for teaching and non-teaching jobs in India to them.

Website : [intellinez.com](http://intellinez.com)

**Company Description:**

LegiCred Powered by Intellinez Systems

**About LegiCred**

LegiCred, our revolutionary blockchain-based solution, transforms the landscape of educational data management by fostering trust and security between students and universities. This innovative platform simplifies program creation, providing institutions with the flexibility to design and manage educational programs while effortlessly tracking academic performance. The blockchain's robust security ensures the authenticity of all academic documents, from marksheets to degree certificates, bolstering credibility. LegiCred further streamlines verification processes, benefiting both employers and institutions while creating additional revenue streams through third-party verification services. Automating credential issuance not only saves valuable time and resources but also ensures compliance with National Academic Depository (NAD) requirements for Indian institutions. Data insights empower institutions to make informed decisions, while social media integration amplifies their branding efforts. Additionally, LegiCred offers white-labeling options for a customized, institution-specific appearance, reinforcing its presence in the digital education landscape. In essence, LegiCred redefines education by providing a secure, efficient, and trustworthy data management solution.

**About Intellinez Systems**

As a leading software development company, we offer comprehensive product development solutions globally. Our skilled team follows industry best practices, serving clients like PracticeLink, MedNavigator, Mahrte and BRC, driving business success through process optimization and revenue growth.

- **Custom Analytics Dashboard:** Monitor and measure growth over time, across various skills and performance indicators.
- **Collaboration with Universities:** Providing dashboards and analytics for educational institutions to monitor and mentor their students.

#### Our Values

- **Student-Centric:** Our primary focus is the educational and professional growth of our users.
- **Innovation:** Continual investment in R&D to improve and add features.
- **Integrity:** Data privacy and ethical conduct are our top priorities.

#### Future Endeavours

- **Expansion into Corporate Offices:** To assist in candidate screening.
- **Global Outreach:** To make Munsow accessible to students across the globe.

## MYMENTOR ACADEMY

Address : #1801, 126 Simcoe Street,  
Toronto, ON M5H4E6  
Canada

Website : mymentoracademy.global

### Company Description:

At MyMentor Academy, we've built a breakthrough skills development and assessment platform that guides students in mastering the 21st Century human skills they will need to succeed in an AI-driven future! These skills are crucial for university and job success in the modern "ChatGPT" world and yet rarely taught or measured currently in a formal educational setting. We are talking about skills such as critical thinking, self-awareness, resilience, leadership, empathy and many more human intelligence skills. We're powered by technology and empowered by educators from Harvard, Yale and Columbia with decades of experience working with learners globally. We currently work with top schools such as GEMS, DPS, Bal Bharati, Birla and others in India/globally.

More specifically, we provide skills development lesson content, supplementary resources/readings from industry experts, skills experience journaling, monthly assessments and a final skills transcript for students & certification for schools provided by Ivy League Educators!

## OPEN DOOR

Address : 118, Rd Number 3, Whitefield, Vijayanagar,  
EPIP Phase-I,  
Bengaluru - 560066, Karnataka  
India

Website : [opendooreducation.in](http://opendooreducation.in)

### Company Description:

In Edtech, Ed comes before Tech. Rather than force-fitting a technology in schools, Open Door likes to think from first principles. Not surprisingly, only 10% of Open Door's offering has 'technology' in it.

Open Door offers three products to schools:

a. Thinking Assessments: Helping teachers ensure mastery of a topic before moving to the next topic

In most of our classrooms, we teach a topic and then move on to the next topic even if 80% children have not fully understood the topic.

Open Door's assessments provide children a system of assessment and re-assessment. The assessment informs teachers about the misconceptions in their students and the re-assessment provides students a second chance to improve.

Through a series of enjoyable and high-quality questions and instant feedback, schools notice their students gaining in-depth understanding.

b. Thinking Classroom: Helping teachers use beautiful questions to help children think on their own

Open Door's 'Thinking Classrooms' is a dream come true for Science and Mathematics teachers. Thinking Classrooms is a set of workbooks with beautiful questions mapped to the CBSE curriculum. Declarative statements made by teachers are replaced with thought-provoking questions.

For educators, our platform enhances pedagogy, reducing lecture time by 75% and facilitating tailored guidance through AI-driven assessments.

Our simulations are versatile, functioning across devices from VR headsets to Smart Touch Panels, ensuring accessibility for all. Proprietary compression algorithms optimize content, delivering Ultra High-Resolution 3D experiences with minimal hardware demands. With an expansive library of 2500+ Hyper- Interactive 3D Simulations covering STEM subjects for grades 6-12, we support diverse curricula and linguistic contexts, fostering global inclusion. Embracing the NEP 2020's objectives, our solutions promote experiential learning and empower educators.

PhiBonacci's transformative contributions have garnered recognition, including the "Disruptor Award" at Bett Asia 2022. Committed to innovation, excellence, and revolutionizing pedagogy, we envision an educational landscape where immersive learning empowers every student for real-world success.

145 - 1st Floor, 1st Main Rd, KHB Colony,  
5th Block, Koramangala,  
Bengaluru - 560095, Karnataka  
India

Website : plaeto.in

### Company Description:

Plaeto is a startup offering accessibly priced world-class school footwear for the Indian child to enable 'The Joy of Play'. We, at Plaeto, have developed shoes specifically for Indian children's feet, as school footwear is the single most used product by any child, with 40-50 hours of usage per week. Plaeto is proudly a 100% 'Made in India' product. Plaeto has created footwear for the Indian feet developed from extensive science-based feet studies. Our shoes are designed by a team of Ex-Nike Footwear innovation experts, in partnership with the world's best footwear engineers from India, USA, and Italy. The footwear incorporates the needs of the Indian consumer through innovative features –Tilt lacing – a lacing system that aligns with the natural motion of the foot, Plaeto 365 cushioning – for year-round comfort, wide-toe box – designed for broader Indian feet to have room for movement, etc. Plaeto shoes are lightweight, durable, and have an attractive modern design. Tested by consumers for over 4000 hours before the launch. Rahul Dravid, India's current cricket coach, endorses our mission and is on board to help us reach our goals.

**STUDILY LEARNING TECHNOLOGIES PVT. LTD. (NEOD)**

Address : Hanuman Mandir, 36, Bhagirathi Umang Co op Housing Society,  
Narendra Nagar,  
Nagpur - 440015, Maharashtra  
India

Website : studily.xyz

**Company Description:**

Optimizing education through personalized learning, Studily is here to empower educators and indulge learners across the globe. Today's education system faces innumerable issues- failure in assessing knowledge gaps being the root cause of academic failures due to the vast 40:1 student-teacher ratio. Utilizing the principles of the Indian government's National Education Policy of 2020 through an Intelligent Tutoring System (ITS), Studily uses the Flipped Learning Model to create a student-centric tool that applies artificial intelligence technology in teaching, learning, evaluation, testing, and training. Adaptable to every student's grasping capability with increased frequency of formative assessments and encouraging students to explore their own methods of optimal learning are just some ways we prepare today's schooling system for tomorrow's Education Revolution. Studily works through a system of repetitive steps. Students first indulge in the low cognitive tasks of digesting a subject's core values to later discuss them confidently in class. During discussions, teachers then recognize any possible knowledge gaps and tailor their teaching method to each student. Students revisit these concepts discussed in class to explore more about the subject and increase their scope of learning.

## TABBIEME LIMITED

Address : 83 Hartfield Crescent,  
Wimbledon, England SW193RZ  
United Kingdom

Website : tabbiemath.com

### Company Description:

TabbieMe Limited is a UK based " Learning Enhancement Program" . Tabbie is based on two simple facts. First, every child has a different learning ability, different strong and weak areas in academics and thus a different learning path. Second, without knowing where the problem lies, it takes much longer to seek a solution.

Our flagship product is TabbieMath, that focusses on Mathematics. We have 1000's of competency-based , real life scenario questions (Grade 3 to Grade 12) that teachers can search based on chapter, topic, skill, complexity, rigor etc. to create tasks and publish to students online or through offline means. When students complete work on Tabbie, our intelligent engine (partly AI led) gathers learning data on students and provides that to teachers and school management in the form of structured digital reports. We train teachers to assess this data so they can efficiently design further tasks for students to address their learning gaps in a sustainable manner. Students also get individualized and custom made remediations.

Our content is based on the Global Proficiency Framework in Mathematics and naturally prepares the students for PISA, TIMSS & SAFAL.

Website : [thedotlearningcircle.com](http://thedotlearningcircle.com)

### Company Description:

Shri Harini Media Limited (A Ramco Group Associate), since its inception in 2011, has been committed to holistic child development and fortifying the essential bonds between educators, parents, and children.

The company started with launch of magazines for parents in English (ParentCircle) and Tamil (Chellamey). We soon diversified our offerings for parents to include a thriving website, online and social media communities and workshops.

We now take immense pride in introducing The Dot Learning Circle, an all-encompassing Pre-Primary Program and Foundational Years Educational Ecosystem.

About the Product Offering: The Dot Learning Circle

The Dot Learning Circle is a comprehensive pre-primary years program for schools that is fully aligned with the National Education Policy (NEP) 2020.

Our unique experiential and hands-on program allows teachers and students to discover a whole new, joyful way of learning. It lays the foundation for fundamental literacy and numeracy skills as well as for language and communication skills, scientific thinking skills and most importantly, social and emotional skills.

With over 1500 kindergarten students currently participating from diverse schools, The Dot Learning Program is yielding remarkable results in the classroom and beyond, paving the way for academic success in children.

At Scikraft, we believe that every child deserves the opportunity to develop a love for science and to gain the skills and knowledge needed to succeed in today's world. We have a team of passionate educators and scientists who are dedicated to making science education accessible to all.

Xperimentor is one of our flagship products, designed to bring experiential learning of science to classrooms and homes alike. With its unique blend of lab-in-a-classroom, coupled with an interactive learning application and inquiry-based content, Xperimentor offers an innovative and engaging learning experience for students. As a grade-specific and NEP 2020 ready solution, it provides complete curriculum coverage and extensive student reporting and analytics, making it a powerful tool for teachers to promote 21st-century skills such as critical thinking and problem-solving. With Xperimentor, schools can transform their classrooms into modern STEM learning spaces, offering students equitable access to high-quality science education.

## XQ VIDEO LAB

Address : Toiing International Private Limited  
Sonawala Road, Goregaon East. Opposite Ginger Hotel,  
Mumbai - 400067, Maharashtra  
India

Website : [xqvideolab.com](http://xqvideolab.com)

### Company Description:

Today, Videos are the most powerful way to express your idea. And video-creation is rapidly becoming a must-have skill for children.

Which is why, we've built the xQ Video Lab - the first-of-its-kind platform for teachers to integrate video-creation in the classroom, and help students become proficient in video-creation in a structured way.

This won't just make academics more engaging, but also help students become confident communicators and unlock their creative potential.

Watch this video to catch a quick glimpse of this Video-Literacy Revolution.

## ZOOMMER

Address : Zoommer Sport  
Yogesh House, East Street, Camp,  
Pune - 411001, Maharashtra  
India

Website : zoommer.in

### Company Description:

Zoommer is a Motor Skills and Brain Development program for children from Nursery to Grade 6. The curriculum is time-tested and running successfully in 6000+ schools across Europe & 20+ cities in India.

We use scientifically designed equipment and teaching tools to develop motor skills and improve brain functions. We have brought to India the world's most advanced Motor Skills Assessment. This is carried out twice a year for each child which enables us to measure the improvement in the child's motor skills and track their physical development.

The program also includes two General Cognitive Ability Assessment through the academic year which tracks the cognitive improvement of each child.
