Such an incredible experience at **India Didactics Association** yesterday, immersing myself in the leading edge of educational innovation and engagement. The vibrancy and passion at the event were genuinely captivating, and I was truly impressed by the cutting-edge developments that are reshaping the education landscape.

Reconnecting with old acquaintances from my educational network was a delight, and I also had the privilege of establishing new relationships with dedicated individuals who are actively propelling positive transformations within education. I'm eagerly anticipating the potential partnerships and possibilities that await in the future.

Took a day off on 18th-Oct-2023 to visit #DIDAC-2023. Asia's Largest #EdTech Event and it was totally worth it to witness pioneers and startups in edtech domain. Here are a handful of startups that I resonated with in terms of their alignment with my work content and methods in the areas of learning and development, Training, Design Thinking, Product design, finishing school in finance and Entrepreneurship.

It was good to catch up with **Tejas Gowda** - Proud alumni of RVCE and founder of **DevelUp** striving to make an impact in the area of Training and Internship with regard to skill development to enhance placements.

Amazed to see the work by **Arpitha Manda** - Founder and HR of start-up by name **Munsav Technologies**. An AI enabled interview preparation online portal which might be a game changer for a lot of people and more so for introverted people who might have inhibitions to open up in front of others.

Another firm which captured my imagination was **LXL Ideas** with their innovative #SchoolCinema, trying to impart life Lessons by creating unique digital experiences for students. The way they are transforming education through films, events, research training, and publications is commendable. Their handouts are amazing and I wished we could do something similar for higher education.

Had an interaction with **Shalicy Vaidya** - Founder and Director of SEVTN shared insights about their program offering named as Uddahal - Mini MBA for schoolers aimed at empowering school students in numerous aspects such as Entrepreneurship, Finance management, Critical thinking, Job market so as to make an informed choice about their own future.

Articulating course outcomes and based on that strategizing pedagogical interventions might not be a cup of tea for every teacher. @Thingseducation is trying to simplify and empower educators in primary education sector. Got the taste of how much Smarter the Smartboards have become with the advent of AI. The faculty are enabled to showcase content and make students internalize the concepts and transition to application layer.

#DIDAC2023 #EdTech #TejasGowda #DevelUp #SkillDevelopment #Munsav #ArpithaManda #SchoolCinema #LXLideas #SEVTN #PedagogicalInterventions

Exciting times at DIDAC - Asia's largest event for Educational Resources and Technology-based products!

I had the opportunity to explore this educational wonderland, featuring over 300 exhibitors showcasing the latest innovations in education. From cutting-edge EdTech solutions to traditional classroom resources, DIDAC had it all!

DIDAC serves as a powerful reminder of the ever-evolving landscape of education. As educators, administrators, and lifelong learners, we must stay ahead of the curve, embracing new tools and resources to empower the next generation.

Key takeaway? Our commitment to quality education is unwavering. Whether we are in a traditional classroom or a virtual learning environment, we're here to make a difference.

Kudos to the organizers for an exceptional event, and a big thank you to all the exhibitors who are shaping the future of education. 🙌

It has been a hive of activity in the last two days at DIDAC.

The IDA awards ceremony was celebrated with loud cheers for the achievements & brilliant talent from education & their contribution to the community.

Women school leaders from Melbourne interacted with their peers on important topics of leadership, student development, inclusion & well being.

And we had a 3- young entrepreneur visit our pavilion curious to learn about some of the digital solutions, products and services.

Jeanette Cheah & HEX Annie Santhana Dr Justin Sung had stimulating discussion on Edtech & its wider role as a driver of innovation in learning & teaching and how it is shaping the education industry.

.....a great wrap up of DIDAC 2023 indeed!

The recently organized International Trade Fair by the India Didactics Association at the Bangalore International Exhibition Centre was a convergence of ideas, innovation, and international collaboration in the field of education. The event showcased the evolving landscape of education, covering various facets from school education to engineering and higher education systems. It was an extraordinary platform that brought together educators, institutions, and experts from around the world.

One of the most striking features of this event was the impressive participation of foreign delegates and the presence of foreign stalls. This international representation not only added a global perspective to the event but also emphasized the importance of cross-cultural exchange in the education sector. It was a testament to the growing recognition of India's education ecosystem on the global stage.

"As a distinguished speaker invited by the Indian Didactics Association," I had the privilege of addressing the audience on the profound impact of digital technologies on higher education. The transformative role of technology in reshaping education cannot be overstated. With the advent of digital tools, students have access to a wealth of resources, enabling personalized learning experiences, and fostering engagement.

The 13th edition of Didac India, Asia's expo-showcasing state-of-the-art solutions for education and skills sectors was held at the Bangalore International Exhibition Centre (BIEC). The summit had Education ministers and ministerial delegations from 15 countries such as the UK, Brazil, Malaysia, Saudi Arabia, etc. and education ministers from over 10 Indian states.

American Education International was also a part of this happening exhibition alongside over 200 exhibitors, including Microsoft, Amazon, Samsung, HP, etc., had about 4,000 products/services on display. It also featured exclusive international pavilions from the UK, Germany, Australia, Canada, Finland, Poland, Singapore among others. Several workshops and conferences were also held alongside the DIDAC India expo. The International Education and Skill Summit, Didac Alliance of International Schools conference, Early Learning conference, K-12 Education conference, IDA Connect workshop are some of the many.

Event Highlights:
Policy & Decision Makers from 23 National & International Governments
21,267 Educational Visitors over 3 Days of the Exhibition
380+ Exhibiting Organisations from 16 Countries
5,000+ Global Products & Solutions at Display
120+ Global Powerful Speakers
3 Days of Power Packed Conferences
30+ Workshops with Hands-on Learning Experience

Proud to be a part of DIDAC INDIA on 17, 18, 19th October 2023 in BIEC, Bengaluru the largest event in Asia for Educational Resources and Technology-based products & solutions for all levels and segments of the Education & Skills sector. This is the International Exhibition & Conference which addresses the growing demand for these products & solutions in our country. The event is partnered by Global Victoria (State Govt. of Victoria, Australia), the British Education Suppliers Association (BESA), DIDACTA (Germany), the World Didac Association & India Didactics Association. Also, the event is supported by all prominent ministries of the Government of India and various educational bodies. Like to share a few take-home points, such as "Phenomenon-based learning" which was there in Ancient India once again becoming the mantra of modern education systems thanks to "The New Education Policy" where students will follow a learner-centred, multidisciplinary instructional approach that is based on their inquiry/curiosity and problem-solving. Not depending on any specific subject but a phenomenon, such as the sunrise and sunset which can relate to the study of geography, history, physics, mathematics, chemistry and everything related to the phenomena. An example is taught without any preset learning objective. Instead, learners investigate and solve their own questions by applying what subjects are relevant to the problem. All "Gurukul wisdom" and "Flow of thoughts" are coming back to the next generations. More emphasis on "Critical thinking & Problem Solving", "Digital Literacy", "Communication & Collaborative Skills", "Global citizenship & Cultural Competence". #DIDACINDIA, #NEP, #MesseStuttgart, #IndiaDidacticsAssociation, #DoGovtKarnataka, #MoEGovofIndia

Three observations at the 2023 #DidacIndia Conference #Bengaluru:
1. Educators at every stage in a student's life cycle - from early childhood to primary & middle years, high school and college and even beyond to careers and skills - are innovating and developing newer ways to learn.
2. At the face of it, Product Design & Technology seem to be shaping the education landscape but the real foundation is in Content & edu-preneurial Intent. ... See more

Co-located at

TIESS, held concurrently with DIDAC India 2023, saw an active participation of influential leaders, policy makers, prominent educators, and key stakeholders hailing from the global education and skill sector.

1900+ Delegates

(Comprising of Policy Makers, Eminent Educationists and Industry Leaders)

310 speakers

(In conferences & roundtables from India & International)

25 Conference Sessions

Prominent participants at the summit comprised education ministers from across the globe and from various States of India, and officials from relevant ministries. Additionally, key attendees included university, college, and school owners, as well as senior management from educational institutions in India and various other countries such as the United States, Canada, Egypt, Ireland, Nepal, Taiwan, Bhutan, Papua New Guinea, Nigeria, Hong Kong, Australia, China, Finland, the Netherlands, Thailand, the UAE, Mauritius, Armenia, Sri Lanka, the United Kingdom, Germany, Singapore, and a few others.

The summit explored a diverse array of pertinent topics, with each session featuring a balanced mix of international and domestic speakers who shared their forward-thinking insights and practical learning solutions. This facilitated a valuable exchange of ideas and future practices, leading to consensus-driven solutions aimed at advancing the education and skill sector. This event received support from various ministries and industry partners.

CONCURRENT EVENTS

IDA ROUND TABLES

Concurrent to DIDAC India, IDA organised sector-specific roundtable discussions on Higher Education (HIED), K-12 education, and Early Learning.

The closed-door structure of the Round Table fostered an environment of trust and unrestrained dialogue and enabled leaders to freely exchange perspectives, insights, and experiences without the constraints of public scrutiny. The discussions were focused, authentic, and candid among peers.

The outcome of this harmonious synergy will be a comprehensive report, encapsulating the collective essence of our discourse.

DIDAC TALKS

The Education Leaders Didac Talks series is a dynamic platform within Didac India, offering live video recordings. It features concise video talks by industry and education experts who express their valuable insights, share experiences, ideas, suggestions, thoughts, and best practices aimed at advancing the Education and Skill Sector. These videos are actively promoted on YouTube and other social media platforms. This platform hosted over 50 distinguished speakers from the realms of education and skill sector.

The IDA Education Awards strive to establish benchmarks in the field of education, covering a wide spectrum of educational institutions including schools, colleges, universities, and skill development organisations, all committed to imparting education and skills at different levels.

These awards acknowledge, honor, and celebrate the exceptional contributions of these institutions. The primary goal is to create exemplary standards for the establishment and operation of educational institutes in the country, by recognising the most innovative and groundbreaking initiatives.

CONCURRENT EVENTS

2400+

Nominations across early learning, K-12 & higher education

100+ Finalists

33 Winners

CONCURRENT EVENTS

DIDAC Academy (WORKSHOPS)

Held concurrently with DIDAC India, Didac Academy (Workshops) were meticulously designed to empower and enrich educators by providing them with cutting-edge and progressive approaches to teaching and learning. Key highlights of the workshops include:

- 30 Sessions across 3 days
- 150+ educators attending each session
- In-depth hands-on exploration of topics
- Evolving practical solutions in teaching
- CPD certified

The workshops were led by a diverse array of national and international experts specialising in various fields related to education.

Participants included seasoned senior educators and teachers representing a wide range of educational backgrounds, including CBSE, IB, Cambridge, ICSE, State Boards, Central Universities, State Universities, Private Universities, Deemed Universities, and more.

The primary objective of these workshops was to enhance educators' perspectives on the future of education, with a specific focus on fostering innovative teaching and learning methodologies.

Some of the topics deliberated upon were:

- The Science of Reading - How Children Learn to Read
- Developing Future-Ready Education Today
- From Chaos to Calm: Integrating Mindfulness in the Classroom
- Promoting inclusivity and Accessibility in Indian Education
- Challenges of Implementing NEP 2020
- Pioneering Initiatives for Student Learning Outcomes using Experiential Learning
- How to help your students become critical, creative thinkers for future success?
- Music & Academics: Bolstering Student's Learning, Achievement and Success and, many more

CONCURRENT EVENTS

UNIQUE NETWORKING INITIATIVES

IDA Meet & Greet Events

The IDA Meet & Greet Events, were hosted at the IDA Lounge. The primary objective of these gatherings was to foster meaningful collaborations and build strong networks among professionals in the K-12 and Higher Education sectors, as well as representatives from various industries.

These sessions offered a distinctive platform for educators and industry experts to engage in informal, transparent discussions, fostering an environment conducive to the free flow of ideas and insights. The participants had the chance to connect, exchange experiences, and explore potential partnerships that could significantly impact the education landscape.

The IDA Meet & Greet Event promoted a sense of community and empowered invited stakeholders to uncover new opportunities for collaboration, business partnerships, learn about industry trends, and acquire valuable information.

CONCURRENT EVENTS

UNIQUE NETWORKING INITIATIVES

B2B Meetings

An exclusive area designated for business meetings was set aside specifically for Exhibiting Companies. The purpose of these meetings was to facilitate smoother interactions between exhibitors looking for potential clients.

Exhibitors were provided with the opportunity to schedule dedicated time slots for meetings with prospective clients. This structured arrangement enabled exhibitors to engage with potential channel partners, fostering opportunities for their business growth and expansion.

MSME PAVILION

MSME PAVILION SUPPORTED BY Ministry of MSME, Government of India

Indian Micro & Small companies registered with MSME, were offered a subsidised rate for participation and received support from the Ministry of MSME, Government of India. The participation benefitted these companies with:

- Ample business opportunities to meet and network with education & industry leaders
- Networking with distributors and channel partners that resulted in business leads & channel expansion
- 55+ exhibiting companies in MSME pavilion met with **over 1,100 distributors & channel partners**
- Met schools, colleges and university leaderships that were direct decision makers and buyers
- Had the opportunity to meet with the Ministers and Ministry officials from 17 countries and explored governmental connects
- **150+ pre-fixed meetings** were created for MSME companies to explore distributors & channel partners across India and globally
- More than **500 pre-fixed meetings** were arranged between Education leaders and participating MSME companies

This showcased the **commitment** by the **Ministry of MSME and Government of India** in supporting Indian companies and promoting the **Make in India** initiative, and **elevating Indian products** on a global stage

NEW BEGINNINGS WITH NEW VENTURES

India Didactics Association is thrilled to share the exciting news of its new partnership with Messe Stuttgart for Didac India

This new collaboration marks a significant milestone for Didac India, marking a momentous leap forward in its growth and raising the event to new levels of excellence. Through a strategic partnership between the India Didactics Association, known for its impactful work in the education and skill sector, and Messe Stuttgart, renowned for its expertise in organising premier exhibitions, we are dedicated to delivering an even more remarkable and impactful educational event in the future. This partnership not only ensures the event's continued expansion but also guarantees enhanced opportunities and a broader reach within the education sector.

This joint venture will result in a bigger, better, and an even more bolder event. Attendees can look forward to an event that offers deeper insights, cutting-edge innovations, and networking opportunities, ensuring that Didac India remains at the forefront of educational discourse.

We are enthusiastic about the immense potential this partnership brings and the positive impact it will have on the education community.

SYNOPSIS

Over the years, DIDAC INDIA has evolved into a highly anticipated event within the Asian education and skills sector. It serves as a focal point for all key players in this field to collaborate, exchange ideas, promote initiatives, network, and share best practices in education and skill development. Drawing participants from both domestic and international spheres, including users and purchasers seeking the latest products, resources, and technologies to enhance their teaching and learning processes., DIDAC INDIA has truly emerged as a global showcase for exemplary practices, resources, and solutions from across the globe.

This event provides an ideal platform for senior representatives from government bodies, educational institutions, and the corporate sector to engage in

discussions and explore the needs of this rapidly expanding and critical sector.

Spanning three days and encompassing exhibitions, conferences, and a variety of workshops, this event brings together professionals within the education and skill development community, ensuring they stay abreast of global advancements in the field.

DIDAC INDIA is the perfect platform for bringing education stakeholders together, allowing companies to showcase their innovative products, solutions & technological advancements to decision-makers, facilitating business and networking opportunities, and acknowledging their contributions to the growth of the education and skill sector.

JOURNEY AHEAD

With a dedicated commitment to introducing innovative products and solutions in the upcoming edition, and a strong resolve to broaden the range of offerings in India, DIDAC India is poised to host an even more significant event in 2024. Continuing on this path of progress, DIDAC INDIA 2024 will be held from 18th - 20th September 2024, Yashobhoomi (India International Convention & Expo Centre) New Delhi
