EVENT HIGHLIGHTS

DIDAC INDIA & DIDAC SKILLS 2025 SUCCESS STORY!

DIDAC INDIA & DIDAC SKILLS emerged as a resounding success, uniting a diverse spectrum of stakeholders including global policymakers, education & industry leaders, speakers, exhibitors and international participants under one roof. The event showcased the latest innovations and facilitated meaningful dialogues aimed at transforming education & skilling systems worldwide.

HIGHLIGHTS:

417 Exhibitors from 13 Countries

- Showcased over 6,000 state-of-the-art products and solutions, ranging from artificial intelligence, learning management systems, virtual reality tools, to advanced laboratory equipments, music, sports, infrastructure, etc.
- Innovations aimed at revolutionising teaching and learning methodologies, focusing on interactive learning, personalised education and skill enhancement.
- Elevating the Indian education and skills ecosystem to international standards, promoting the integration of global best practices.

Comprehensive Platform:

- Facilitated cross-sector engagement amongst educators, policymakers, industry experts and technology providers.
- Delivered a dynamic, multifaceted experience through exhibition, conferences, workshops and networking events.

Concurrent Activities:

- Three days of enriching conference & interactive sessions, featuring keynote speeches, panel discussions and expert talks that sparked **thought-provoking discussions** on current challenges and future directions.
- Over 30 Interactive Workshops, providing hands-on experience with new educational tools and methodologies.
- IDA Round Table Meetings, where sector-specific issues were deliberated upon by thought leaders.
- DIDAC Talks Podcast, capturing insights from industry veterans, current leaders and innovators.
- IDA Awards, recognising excellence and innovation in education & skills.
- IDA Hosted Partnered Meets, showcasing a sense of trust and commitment among partners and various associations associated with IDA.
- Business Matchmaking, facilitating partnerships and collaborations.
- IDA Masterclasses, offering deep dives into specialised topics.
- **And Much More...**

Visitor Participation:

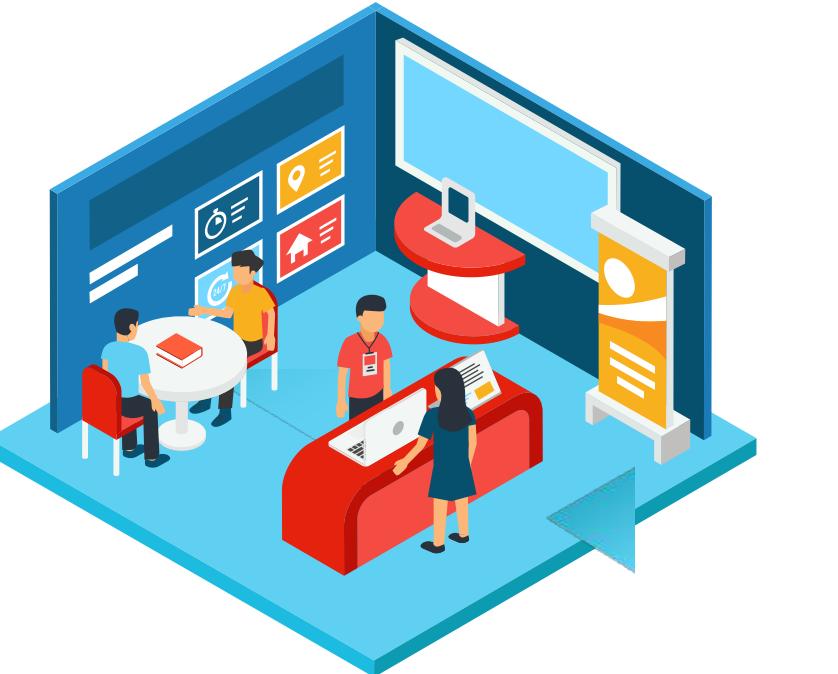

- 27,546 visitors, including prominent educators, ministry officials, industry experts and trade visitors.
- Attendees represented **national and international governments, educational institutions and industries from 45 countries**, highlighting the event's global reach.

The event truly embodied its motto of **#UnitingForEducation and #UnitingForSkills**, fostering an environment where ideas could be exchanged, partnerships forged and innovations unveiled.

LAUNCH OF DIDAC SKILLS

Asia's Only Exhibition & Conference on Skills

DIDAC SKILLS, a dedicated B2B platform focused on **skills development, employability and workforce readiness**. Designed as an integrated engagement ecosystem, the platform brought together the exhibition, solution showcases, live challenges & demonstrations, workshops, conferences and curated roundtable discussions to enable structured dialogue and practical exchange among education providers, industry, training organisations and policymakers.

By facilitating direct engagement with applied technologies, skill solutions and scalable models, DIDAC SKILLS supported collaboration, knowledge sharing and partnership-building across the skills value chain. The launch positioned the platform as an action-oriented environment enabling stakeholders to **explore implementation pathways aligned with evolving industry and workforce needs**.

CONCURRENT EVENTS

Conference 2025

TIESS emerged as the intellectual and strategic heart of the event, uniting eminent global leaders, policymakers, visionaries, educators and industry stakeholders. The summit fostered high-level dialogue, rigorous thought exchange and future-focused discourse, addressing the most pressing challenges of the education and skills ecosystem while shaping transformative pathways for inclusive, innovative and sustainable learning worldwide.

2500+ Delegates

from around the world

350+
Speakers

sharing expertise & best practices

3 Days

of powerful brainstorming & networking

1 Grand Event

30+
Interactive Sessions

covering a wide spectrum of themes

Multiple

Breakaways & plenaries

Delegates:

- Ministers and senior government officials from multiple countries and Indian states, offering strategic leadership perspectives and policy direction.
- Policy Experts and advisors, sharing deep insights into governance frameworks, reform strategies and effective policy implementation.
- Academic leaders, including vice-chancellors, directors, principals and deans, presenting institutional best practices, academic innovation models and leadership experiences.
- Industry leaders and corporate decision-makers, highlighting the critical role of public-private partnerships, industry alignment and private sector engagement.

Key Discussion Points:

- Education-Skills Alignment:** Policy perspectives & implementation models enabling stronger linkages between education systems and evolving skill requirements.
- Institutional Transformation & Governance:** Best-practice approaches supporting academic, operational and organisational reform across education & training institutions.
- Industry Collaboration & Partnerships:** Proven models and frameworks for effective engagement between education & skill providers and industry.
- Technology Integration:** Implementation of digital tools and emerging technologies to enhance teaching, learning and skills delivery.
- Curriculum, Pedagogy & Assessment:** Contemporary practices and applied approaches to curriculum design, delivery and evaluation aligned to learner and workforce needs.
- Policy & Regulatory Frameworks:** Perspectives on reforms, execution mechanisms & ecosystem alignment.
- Global Best Practices & Insights:** International case studies and cross-border learnings relevant to the Indian and Asian education & skills landscape.

DIDAC Academy

WORKSHOPS

Didac Academy Workshops were meticulously designed to empower, upskill and inspire educators, offering innovative, future-ready and pedagogically advanced approaches to teaching and learning.

Objectives:

- Empowering Educators & Trainers:** Providing practical tools, contemporary insights and actionable knowledge that enhance teaching effectiveness.
- Fostering Innovation in Pedagogy:** Encouraging the adoption of innovative methodologies, learner-centric approaches and emerging best practices in teaching and learning.
- Enabling Professional Networking:** Opportunities for peer engagement, knowledge exchange and sharing of experiences within a collaborative professional community.

CONCURRENT EVENTS

- Highlights:**
 - 30+ Sessions** covering contemporary and emerging themes.
 - Expert Facilitators:** National and international international educators, trainers and subject-matter experts.
 - Interactive Format:** Immersive, hands-on activities, collaborative discussions and practical, classroom-ready exercises.
 - CPD Certification:** Participants received CPD certification, recognising their commitment to continuous learning and professional excellence.

CONCURRENT EVENTS

HOSTED MEETS

Over the three days of DIDAC India and DIDAC Skills, the India Didactics Association (IDA), in collaboration with its partners, curated a series of exclusive Hosted Meets designed for owners, founders, and senior leadership across the education and skills ecosystem.

These invitation-only engagements created a focused environment for meaningful dialogue amongst decision-makers shaping the future of learning and workforce development.

These Hosted Meets facilitated high value networking and peer-to-peer interactions, enabling participants to exchange perspectives, explore emerging opportunities and discuss strategic priorities.

By bringing together institutional leaders, industry experts & solution providers, the meets foster purposeful conversations that go beyond transactional engagement for long-term collaborations.

These curated gatherings reinforced DIDAC's role as a catalyst for collaboration and thought leadership. These Hosted Meets not only strengthened relationships across the ecosystem but also laid the foundation for partnerships that can drive innovation, scale, impact and collectively advance education and skills development in India and beyond.

The 6th edition of IDA Awards honored and celebrated excellence & innovation within the education & skills sector.

The gala award ceremony was held on 18th November evening, concurrent to the event, with the largest gathering of education & industry leaders in attendance.

Purpose:

- **Benchmarking Excellence**
- **Recognising Innovation**
- **Encouraging Best Practices**
- **Industry-Academia Networking**

CONCURRENT EVENTS

3000+ Nominations

across Early Learning, K-12, Higher Education & Skills

180+ Finalists

31 Winners

IDA Awards celebrate pioneering initiatives by Education and Skills Institutions that are redefining learning experiences and strengthening future readiness. The Awards recognises institutions that are **Re-Discovering, Re-Defining and Re-Imagining** the teaching-learning ecosystem, while equipping learners with the knowledge, competencies and employability skills essential for life and work in exemplary manner.

These awards honour institutions that are advancing both academic excellence and skills-based outcomes through innovation, progressive thinking and a commitment to quality and relevance. By embracing new opportunities and setting higher benchmarks, the recognised institutions are driving meaningful transformation across the education and skilling landscape.

CONCURRENT EVENTS

IDA ROUND TABLE MEETS

Round Tables

Outcomes:

- Development of clear, actionable strategies to effectively address identified challenges.
- A comprehensive report serving as a strategic roadmap for future initiatives and long-term sectoral advancement.

Sector-Specific Discussions:

- Early Learning
- K-12 Education
- Higher Education
- Skills
- Technology

Format:

Closed-Door Deliberations: Curated, confidential sessions enabling open, candid and high-impact discussions.

Participants: By invitation only, comprising select education leaders, institutional heads, industry stalwarts and policymakers.

Focus Areas:

- Addressing sector-specific challenges through focused, outcome-oriented deliberations.
- Ideating innovative and practical solutions to drive sustainable and meaningful transformation.
- Sharing success stories, insights and best practices to inspire progress and scalability across the sector.

DIDAC Talks Podcast

CONCURRENT EVENTS

A distinctive and forward-looking extension of the event, the DIDAC Talks Podcast series captured powerful insights and diverse viewpoints from invited leaders, shaping the future of education and skills development. The series amplified meaningful conversations on emerging trends, challenges and innovations across the education and skilling ecosystem.

Impact

- **Knowledge Amplification:** Extended the reach of expert insights well beyond the physical event, making them accessible to a wider global audience.
- **Continuous Learning:** Serves as an on-demand knowledge resource, enabling educators and stakeholders to engage with cutting-edge ideas anytime, anywhere.
- **Community Engagement:** Sparked ongoing dialogue and interaction across social media platforms, fostering deeper connections and sustained engagement within the education & skills community.

CONCURRENT EVENTS

B2B Meetings

A dedicated **B2B Business Lounge** was curated exclusively for exhibitors, sponsors and select partners to enable focused, high-value business interactions. Designed as a structured engagement environment, the space facilitated purposeful meetings between exhibitors, prospective clients and strategic partners, ensuring confidentiality, efficiency and meaningful dialogue.

Exhibitors were offered **pre-scheduled, dedicated meeting slots**, allowing for targeted conversations with potential buyers and channel partners. This curated approach supported qualified engagement, partnership exploration and business development discussions, reinforcing DIDAC's role as a platform that actively enables commercial outcomes and long-term collaboration.

IDA Masterclasses

Hands-on learning experiences bridging pedagogy, technology and skills

Masterclasses at DIDAC were curated as **immersive, hands-on professional learning experiences** that extended beyond conventional classroom practices. Designed to introduce progressive pedagogy, technology enabled interventions and evolving teaching-learning processes, these sessions enabled delegates to engage directly with approaches shaping both education and skills development. By integrating insights from educators, practitioners and industry experts, the **masterclasses bridged learning design with real-world application and workforce relevance**.

Delivered through interactive formats, live demonstrations, reflective dialogue and collaborative problem-solving, the masterclasses focused on actionable strategies for learner engagement, curriculum design & assessment. Participants explored experiential and interdisciplinary approaches, tested practical tools and examined how emerging technologies can be meaningfully integrated into teaching and training contexts. **The sessions fostered strong peer exchange, allowing delegates to share experiences, build professional connections and take back implementable ideas aligned to institutional and skilling needs.**

CONCURRENT EVENTS

MSME PAVILION

भारत सरकार
GOVERNMENT OF INDIA
सूक्ष्म, लघु और मध्यम उद्यम मंत्रालय
MINISTRY OF MICRO, SMALL, & MEDIUM ENTERPRISES

Statistics:

- **60 Exhibiting Companies**
- **1400+ Distributors and Channel Partners engaged**
- **500+ Pre-fixed Meetings** arranged for business discussions

MSME PAVILION SUPPORTED BY Ministry of MSME, Government of India

The MSME Pavilion served as a dedicated platform to empower Micro and Small Enterprises by enhancing their visibility, market access and growth opportunities within the education and skills ecosystem:

- **Empowering Small Enterprises:** Enabled emerging and small-scale businesses to showcase their innovations, strengthen market presence and accelerate growth.
- **Advancing 'Make in India':** Promoted indigenous products, solutions and capabilities, reinforcing India's manufacturing and innovation excellence.
- **Business Expansion Opportunities:** Facilitated networking, collaborations and partnerships, opening new pathways for commercial and strategic growth.
- **Subsidised Participation:** Offered cost-effective access, ensuring wider and more inclusive participation from MSMEs across the country.
- **Global Exposure:** Attracted international interest, creating avenues for cross-border collaborations and global market entry.

SYNOPSIS

Over the years, DIDAC has firmly established itself as a flagship platform in the Asian education and skills ecosystem, serving as a powerful catalyst for progress and transformation. The event brings together key stakeholders from across the globe to collaborate, exchange knowledge and collectively drive innovation in education and skills development.

Key Attributes:

- **Global Confluence:** A premier meeting ground for international and domestic stakeholders across the education and skills spectrum.
- **Holistic Scope:** Comprehensive representation of the entire education continuum, from early learning and K-12 to higher education, vocational training and skills development.
- **Thought Leadership:** Curated insights, perspectives, and strategies shared by leading experts, policymakers and practitioners shaping the future of learning.
- **Innovation Showcases:** A dynamic hub featuring cutting-edge products, solutions and technologies redefining education and skilling.
- **Strategic Networking:** High-value interactions that enable meaningful collaborations, partnerships and business opportunities.
- **Professional Advancement:** Conferences, workshops and learning sessions designed to enhance competencies, leadership and sectoral expertise.

TESTIMONIALS

This week I attended **DIDAC INDIA** Asia's largest exhibition and conference for the education and skill sector.

As someone deeply invested in sustainability education, this experience affirmed something powerful: the future of learning is being rewritten—and it's more imaginative, inclusive, and purpose-driven than ever.

I met passionate founders, educators, and creators building AI tools that help schoolchildren learn better—from assignment generation to gamified quizzes and personalized pre tests. At first, I was unsure how AI being integrated so deeply into learning environments—but these conversations showed me just how intentionally many of these tools are designed, with pedagogy and equity in mind.

Then there was the world of AR/VR! I stepped into pyramids, fixed machines, and explored STEM like never before—all in immersive 3D environments. These tools aren't just about tech for tech's sake; they spark curiosity, build empathy, and remove barriers to access.

Even beyond tech, I found initiatives using card games and activity books to teach financial literacy, climate action, and leadership in beautifully simple ways. One startup created nature-based spaces in schools to nurture mindfulness and a connection with the planet—something that resonated deeply with me.

This visit gave me something precious today: Better ways of teaching are not only possible—they're happening.

I'm more dedicated than ever to building an immersive, creative, and inclusive path for climate and sustainability education. If you're working at the intersection of education, technology, storytelling, or planet-positive learning, let's talk. There's so much we can do together.

This year **India Didactics Association** came up with innovative approach towards educating and upskilling educators and students. Attending this informative and thought provoking exhibition as a student provided opportunities to upgrade my learning experience.

There are multiple exit and entry options nowadays for students in every field as per their interests which will eventually thrive them to upskill themselves by feeding these curious minds.

I could understand from a student's perspective that one should not solely rely on incorporating **Artificial Intelligence** only in education sector. The need of the hour is to analyse the interests of the students considering a lot of parameters such as cultivating emotional intelligence and resilience in students, developing self awareness which can be primarily done by incorporating Indian Knowledge System(IKS) by **MINISTRY OF EDUCATION, GOVERNMENT OF INDIA**. We, as Indians, must not forget our roots 😊.

Yes, AI is the future but building a character should remain our priority.

And many more..

Pranay Pravin Oswal • with Surendra Kul Kulkarni and 7 others.

Honouring 15 Monumental Years of DIDAC India — A Beacon of Pedagogical Advancement

Heartiest congratulations to DIDAC India on completing 15 extraordinary years of shaping the intellectual architecture of modern education. This milestone embodies DIDAC's relentless pursuit of pedagogical excellence, global synergy, and transformative thought leadership.

The 2025 edition once again confirmed DIDAC's eminence as an indelible confluence of education, technology, and innovation. The platform convened eminent academicians, visionary policymakers, trailblazing innovators, and distinguished global practitioners—all contributing to a rich tapestry of avant-garde methodologies, pioneering best practices, and future-centric educational paradigms.

What distinctly underscored this year's event was DIDAC's uncompromising devotion to neutrality, ethical purity, and equitable amplification of every participating voice. This principled stance elevated the discourse and fortified the event's intellectual sanctity.

As DIDAC India celebrates 15 years of profound influence, it continues to set the platinum standard for global educational convenings, reinforcing its legacy as a catalyst for systemic transformation and enlightened academic progress.

Witnessing the entire DIDAC India fraternity continued ascendancy and an even more consequential future ahead.

Sharing a glimpse of some candid moments with some of the top intellectual thespians from India's education fraternity:

Attending the **DIDAC INDIA** Exhibition this year felt less like walking through an event and more like stepping into the future of India's learning ecosystem.

As someone building solutions at the intersection of strategy, communication, and impact, I was genuinely impressed by the depth of innovation on display— not just in products, but in the mindset of the organizations leading them.

From AI-led learning systems and immersive simulations to data-driven institutional tools, it's clear that education in India is shifting from content delivery to outcome architecture.

What stood out to me most was the scale of intent. The conversations weren't about "adoption" anymore, they were about acceleration.

For people like us, this opens an exciting horizon.

Brands operating in this space will need sharper narratives, stronger positioning, and communication that can translate complex innovation into clarity, trust, and adoption. And that's exactly where the opportunity lies.

India's education sector isn't just growing—it's maturing. The next decade will belong to organizations that can blend technology, purpose, and communication with equal conviction.

Asia's largest and India's only conference and exhibition dedicated entirely to the education sector, **DIDAC INDIA**. And by education sector, I mean a space where one can interact with state representatives, academicians, technologists, teachers, parents, and future change-makers—essentially every individual imaginable in the ecosystem of education.

What makes it truly unique is how it pushes you to think beyond the box. Education today is not just schooling or university degree; it is skill development, employment, study-abroad opportunities, state-level initiatives, and teaching pedagogies, all of it coming together to show how creatively and consciously one can plan and pursue their educational journey.

At the heart of this vibrant space was the German Pavilion, represented by organisations like the **German Embassy New Delhi**, **Goethe Institut Indien**, **Indo-German Chamber of Commerce**, and **telc gGmbH**, to mention a few. I am truly grateful that I could experience all of this under the guidance of **Anuroopa Dixit**. I am genuinely glad I could be an exhibitor there and engage to enhance my understanding of "Study in Germany" as a DAAD intern, bringing together practically every aspect of the Indo-German setup through the lens of education.

The Green School Bangalore was a finalist at the prestigious IDA Education Awards 2025, held in Delhi.

We are proud to share that The Green School Bangalore was recognised as a finalist at the IDA Education Awards 2025, held at the Yashobhoomi India International Convention & Expo Centre, New Delhi, one of India's most respected and internationally recognised education award platforms.

This honour reaffirms our commitment to meaningful community partnerships, strong institutional engagement, and creating impactful learning experiences for every child at TGSB.

Our Founder, Ms. Usha Iyer, was also invited to be part of the Round Table Discussion at DIDAC India 2025, contributing to a dynamic conversation.

On the last day at DIDAC Skills 2025, the India Didactics Association (IDA) Future of Work Roundtable brought together leaders from industry, academia, and policy to reflect on how India can reimagine talent, learning, and collaboration for India@2047.

The discussion explored the rapid shifts shaping the world of work. From human-machine collaboration and automation to the exponential learning models aligned with Industry 5.0.

In the segment on real-world learning, Mr. Vasu Sharma, General Manager, NSDC, shared insights on the role of apprenticeships in building sustainable talent pipelines and strengthening employability.

The roundtable concluded with a shared commitment to advancing industry-academia partnerships and co-creating frameworks that can drive India's workforce transformation journey in the years ahead.

Ready to have your mind blown? 😊

Just returned from Didac India 2025—where education felt like pure sci-fi magic!

VR classrooms, AR experiences, 3D prototypes, AI-powered learning, robotics, IoT tools... every corner showcased something that made me rethink what the classroom of tomorrow could look like.

How hands-on creativity and cutting-edge tech are coming together to make learning more immersive, inclusive, and impactful. The educators, innovators, and founders I met sparked ideas that truly showed how digital equity can become a reality.

Still buzzing from everything I explored—the demos, the conversations, and the practical experiences that proved one thing: The next-gen classroom isn't coming. It's already here.

Huge thanks to the organisers **DIDAC INDIA** and everyone at **#DidacIndia2025** for turning imagination into action and inviting us all to step into the future of learning!

Fortunately Pre-Posthumous!! 😊

Amidst teaching, research, deeply time-consuming administrative responsibilities like admissions, and the avalanche of life's responsibilities, I would often joke with my students that if I were to find time to write a book, there was a chance it would be published posthumously!

But, that didn't happen, and I am happy to share that our new book, 'Strategic Communication for Impactful Partnership', published by **Routledge Books**, UK was launched at **India Didactics Association** India, New Delhi.

The book, born of years of teaching, practising, and reflecting, draws on global research and India-based case studies. Has several very handy frameworks and models and can serve as a comprehensive guide to multi-stakeholder collaboration for NGOs, government bodies, social enterprises, and development agencies. It is for anyone who believes that communication can make a difference.

A heartfelt thank-you to my co-authors, students, and colleagues for being part of this journey and **MICA | The School of Ideas** for the encouragement and support.

Acknowledgement and Gratitude to **PhiBonaci Solutions**, **CSROBK**, **Manisha Pathak-Shelat**, **Sushama Oza**, **Aatman Shukla**, **Ayan Shukla Jagati**, **New Media rajnikant srivastava**

Privileged to be part of **DIDACINDIA2025**, a powerful convergence of ideas and insights. From skill-based learning to transformative educational tools, every conversation reaffirmed how quickly the landscape of schooling is evolving.

A preceptor grows not by what she teaches, but by what she continues to discover—DIDAC was that discovery.

With quiet gratitude to my avant-garde management for making this meaningful exposure possible.

#DIDACIndia #FutureOfEducation #SkillBasedLearning #EducatorsEvolve #Allenhouse Public School Agra DIDAC INDIA

DIDAC INDIA & DIDAC SKILLS continue to play a pivotal role in advancing the education and skills landscape, fostering collaboration, accelerating growth and consistently pushing the boundaries of innovation across the sector.

Together, these strategic priorities will continue to position **DIDAC INDIA & DIDAC SKILLS** as a catalyst for transformation, innovation and sustained progress in the education and skills sector.

JOURNEY AHEAD

With an unwavering commitment to advancing education and skills development, **DIDAC INDIA & DIDAC SKILLS** are poised to be an even more impactful and grander in 2026.

- Expanding Offerings:** Introducing a wider and more diverse portfolio of innovative products, solutions and experiences to address the evolving needs of the education and skilling ecosystem.
- Enhancing Global Reach:** Engaging participants from new geographies and regions, further strengthening international footprint and global relevance.
- Deepening Impact:** Prioritising measurable outcomes and real-world applications that translate insights into tangible improvements across education and workforce development.
- Strengthening Collaborations:** Forging deeper and more meaningful partnerships with governments, institutions and industry stakeholders to enable synergy, shared value, and collective growth.
