Dr. Ashwath Narayan C.N.
Minister of Higher Education,
IT & BT, Science and Technology,
Electronics and Skill Development,
Entrepreneurship & Livelihood and
Ramanagara District In-Charge
Minister

The Department of Higher Education, Government of Karnataka is pleased to partner and host the Twelfth edition of DIDAC INDIA organised by India Didactics Association from 21st to 23rd September 2022 at the Bangalore International Exhibition Centre, Bengaluru.

I am pleased to welcome all Ministers, Policy Makers, Education & Industry Leaders and invited experts from across the global, representing the global education and skills sector, to this three-day International Exhibition and Conference.

As the host State, we look forward to active participation from all stakeholders to witness the future of education.

DIDAC INDIA is a unique platform for exploring innovative products and solutions, and understanding global trends and opportunities, thereby facilitating in creating an ecosystem for growth and progress of education and skills sector.

Historically Karnataka state has been a significant contributor to India's growth in the emerging sectors like Information Technology, Biotechnology, Nano Science and Technology. Bengaluru - termed as "Silicon City" is the hot bed for innovation through the presence of the largest number of start-ups and unicorns. Karnataka state has topped the India Innovation Index published by NITI Aayog for the last three consecutive years. All this because of the presence of a vibrant ecosystem consisting of good quality educational institutions and research establishments enabled by visionary policies of the State Government. Being in the forefront of implementation of National Education Policy 2020, we continue to maintain the lead and thereby benefit the state and country.

I am confident that DIDAC INDIA shall be a great learning platform for all, supporting in your individual growth as well as for your organisations, and contributing in realising and expanding the true potential of this sector in India.

I wish the programme all the very best!

Dr. Ashwath Narayan C.N.

FROM THE ORGANIZERS DESK...

Greetings

We welcome all our valued Exhibitors, Partners, Speakers, and Delegates to the 12th Edition of DIDAC INDIA - Asia's Largest and India's only Exhibition & Conference dedicated to the Education & Skills Sector.

The future of any nation depends on the impact of education on its students. Education carries utmost importance in all ages because it functions as an engine of development, progress and prosperity for any nation. It is the very reason why Educators are often considered harbingers of change in society.

As the world we live in changes to embrace the future, how and what we teach in our education system will also be reshaped to keep up to date with the growing demands of the 21st century. The facets of education like curriculum, learning environments, assessment, pedagogy and community has to evolve. Technology is no longer a motivating factor when it comes to learning – it is a must. It is something that should be integrated as a part of education to ensure students are equipped with the right knowledge and skills to adapt with the changing ecosystems.

It is, therefore, the role of educators that takes prominence in shaping the future as they must also adapt and grow to blend the past strengths with the current requirements to ensure a smooth transition. It is their responsibility to empower students to take risks, be innovative and seize any opportunity thrown their way. Leaders of Institutions and Educators of the future will play the role of analysts, planners, collaborators, facilitators, synthesizers, problem-solvers, and researchers.

Didac India endeavours to meet these growing demands by showcasing the new initiatives and developments in education, technology, resources, and solutions. It is an unparalleled platform for exchange of dialogues on education & skill policies and implementation of best practices.

The past 2 years have seen the education sector face multiple challenges and both the institutions and educators have stood strong and faced them with resilience. As we move forward, we are confident that the education sector will grow Bolder. Better. Stronger.....Together

We are honored to have, every year, the presence of Education & Skill Ministers of select Asian countries and Indian States, distinguished educators, and leaders from across India and abroad, acknowledging this event as an important international platform for the exchange of ideas.

We thank our Indian and International partners, Ministries and educational bodies for their constant support and confidence.

We also appreciate all individuals and companies for supporting the movement #UnitingForEducation and making Didac India the largest gathering for the education sector.

Thanking you for your presence this year and we look forward to your support in making the Event stronger in the coming years.

Team Arclights

The state government of Victoria, Australia welcomes the opportunity to showcase our wealth of expertise in learning and didactics at DIDAC INDIA 2022.

Melbourne has a reputation as a world leading educational hub, and we are delighted to work again with the Indian Didactics Association to showcase the best of Victorian learning and edtech solutions and to share and workshop experiences in India and Australia to achieve better learning and life outcomes.

Victoria's strength in education technology is borne from our state's longstanding expertise in educational excellence from early childhood to school to vocational and higher education and beyond. Victoria has a vibrant and collaborative EdTech clusters of EdTech companies, globally recognised education institutions and industry partners. The sector is thriving and leading education innovation in online program management, assessment systems, and upskilling for new technology-driven work futures.

We are also home to strong cluster of research institutes focused on the K-12, post-secondary and the VET segments. These organisations also act as think tanks to assist governments, institutions, and educators to provide data-based insights to enhance and shape the future of EdTech solutions.

We have current success stories in India servicing all education levels, and at the same time, we are seeing leading Indian companies collaborate with Victorian educational institutions and related companies in Australia.

The pandemic has re-framed how people learn and how we manage our educational institutions. This is an exciting time and there are great strengths in sharing experiences and working together to achieve great learning outcomes.

On behalf of our State Government Office of Victoria in Bengaluru and our Victorian companies, I extend a warm welcome to all visitors and our friends at Indian Didactic Association. We look forward to welcoming you to our stand and to meeting you during DIDAC INDIA 2022.

Ms. Michelle Wade
Commissioner for South Asia
State Government of Victoria, Australia

Indian and British schools and colleges share and enjoy many educational values including an emphasis on high standards, trusted quality, intellectual rigour and practical ingenuity.

Thanks to Didac India's focus on developing India's premier education exhibition and conference we have seen the development of a long-standing and positive relationship between Indian education policy-makers, decision-makers and leaders and British educational suppliers.

Our mutual dedication to excellence and innovative learning techniques has resulted in many long and successful partnerships between UK education companies exhibiting here at Didac India and Indian educational establishments.

The recent signing of the landmark UK-Indian Education MOU means A-levels and their equivalents, undergraduate and postgraduate degrees will now be recognised in India – and even stronger reason for India-UK education collaboration.

My organisation BESA represents 400 of the very best of the UK's education resource providers. BESA travels the globe with our leading companies to meet school and college leaders around the world to share ideas and examples of British education products and services but we are always made to feel most welcome in India and for this reason I am delighted to be able to welcome you to our British Pavilion at Didac India 2022 and look forward to a positive dialogue and discussions on your institution's resource needs.

Caroline Wright
Director-General
British Educational Suppliers Association

didacta

Welcome to the German Pavilion at the DIDAC INDIA 2022

It is my pleasure to welcome you to the German Pavilion at the DIDAC INDIA 2022. The exhibition and its conference is the exclusive event for the education industry in India and the largest in the entire region. Since its start in 2009 leading German companies of the education industry have always participated at the show at alternating venues. German companies showcase their products at the German Pavilion covering the entire spectrum of lifelong learning, from early childhood education to further education as well as vocational education and training.

The German Federal Ministry for Economic Affairs and Climate Action (BMWK) as well as the Association of the German Trade Fair Industry (AUMA) are supporting this group participation, giving German companies the possibility to present their excellent products and to offer their renowned services to key players and decision makers from all over the region. They are inviting you to discover their state of the art equipment and solutions "made in Germany" for all levels of successful lifelong learning at the German Pavilion. Didacta - the Association of the German Education industry and the initiating association for the German joint stand is accompanying the German delegation and providing professional advice.

On behalf of the German delegation I extend a warm welcome to all visitors and wish everybody a successful show and exciting impressions on the conference.

Reinhard Koslitz
CEO

Didacta - Association of the Education Industry

Dear Visitor

After a two-year hiatus, I am particularly pleased to welcome you to the 12th Edition of Didac India.

The show has not only grown in importance and strengthened its role as the premier event for educational resources, training and technology-based solutions in India and the Indian subcontinent. This year, the fair marks a return to friendly ties, where we can finally come together again and shake hands with old acquaintances and business partners.

The education industry has not stood still over the past two years. On the contrary, the recent events have shown us that innovation and further development are more important than ever. It has shown us the importance of comprehensive digitalisation, how rapidly the world around us changes, and how fast we can adapt to the modern world if, we create the technical conditions for it.

With a focus on digitalisation, versatile EdTech products and solutions along with the determination to evolve and improve, this annual show will continue to set new benchmarks within the Indian education and training sector. As a long-standing partner of Didac India, we firmly believe that this fair is an ideal platform and is a "must-attend" for all those who care about education and technological advancement in all its facets.

Explore the latest achievements within the unique world of education, prepare yourselves for the many "aha" moments which the exhibitors have in store for you and most importantly, never stop learning!

Danny Gauch
Director General
Worlddidac Association

Website : scottiego.com

Company Description:

BeCREO Technologies is a Polish IT company which develops innovative educational tools for education and consumer markets. BeCREO implements a holistic vision, equipping the student, teacher and parent with safe tools for the use of modern technology in the process of stationary, hybrid and distance learning. The internationally awarded products from the ScottieGo! series create a new quality of education, combining proven methodology with the latest technologies, such as Augmented Reality. The products are used in over 70 countries around the world.

The leading product Scottie Go! is an innovative educational game series which teaches programming. It promotes the development of algorithmic intuition and competencies, according to the latest research in methodology and technology. The games are available in 23 languages for Android, iOS and Windows.

BeCREO developed a virtual environment and programming language for children. Multiple assets, various difficulty levels, and heroes of the game allow introducing programming from an early age, with no previous experience required, as well as delivering challenging programming environments for more experienced players. The Scottie Go! features a friendly alien called Scottie, who experiences numerous adventures while traveling in space. By helping Scottie, players gain programming knowledge and develop very important skills and competences.

AWS Academy

Empowering higher education institutions to prepare students for industry-recognized certifications and careers in the cloud

Bridging the gap between industry and academia

As cloud technologies continue to help organizations transform at a rapid pace, employees with the necessary cloud skills are in high demand. According to LinkedIn data, cloud computing is the number one hard skill companies need most.

AWS Academy provides higher education institutions with a free, ready-to-teach cloud computing curriculum that prepares students to pursue industry-recognized certifications and in-demand cloud jobs. Our curriculum helps educators stay at the forefront of AWS Cloud innovation so that they can equip students with the skills they need to get hired in one of the fastest-growing industries.

AWS-authored curriculum

Designed by AWS experts, our ready-to-teach courses and learning resources help institutions and educators stay up to date with the latest cloud innovations.

AWS Certification alignment

Educators and students acquire AWS skills and can prepare for AWS Certification with complimentary practice exams and 50% discounts on full exams.

Employment readiness

By providing students with in-demand skills and hands-on experience working in the AWS Cloud, the AWS Academy curriculum helps prepare graduates to pursue careers in the cloud.

About the curriculum

AWS Academy offers courses and learning resources that enable students to develop a range of skills in the AWS Cloud.

AWS Academy Cloud Foundations

This introductory course provides a detailed overview of cloud concepts, AWS core services, security, architecture, pricing, and support. It contains 20 hours of course content and prepares students to pursue an AWS Certified Cloud Practitioner certification.

AWS Academy Cloud Architecting

This intermediate-level course covers the fundamentals of building IT infrastructure on AWS and helps students gain the skills they need to pursue the AWS Certified Solutions Architect – Associate certification. This course contains approximately 40 hours of content delivered through lectures, hands-on labs, and project work.

AWS Academy Cloud Developing

This intermediate-level course will help students gain technical expertise in development with cloud technologies. It will also help them prepare for the AWS Certified Developer - Associate certification exam. Upon completion, students will be able to develop with the AWS SDK and identify best practices for building and deploying applications in the AWS Cloud. This course contains approximately 40 hours of content delivered through lectures and hands-on labs.

AWS Academy Cloud Operations

This intermediate-level course will prepare students to pursue in-demand DevOps, support, and cloud operations roles at the entry level. It will also help them prepare for the AWS Certified SysOps Administrator – Associate exam. Through case studies, demonstrations, and hands-on activities, students will learn how to troubleshoot various scenarios and automate deployments of networks and systems on AWS. This course contains approximately 40 hours of content delivered through lectures and hands-on labs.

AWS Academy Machine Learning Foundations

This course introduces students to the concepts and terminology of artificial intelligence and machine learning. By the end of this course, students will be able to select and apply machine learning services to resolve business problems. They will also be able to label, build, train, and deploy a custom machine learning model. This course contains approximately 20 hours of content delivered through lectures, hands-on labs, and project work.

AWS Academy Data Analytics

These lab exercises teach students how to conduct Big Data analysis with practical, real-world examples. Students will learn how to analyze extremely large data sets, and to create visual representations of that data, using a case-study approach. The labs and learning resources are designed to supplement an institution's existing Big Data and data analytics courses. Geared toward students interested in pursuing careers in data analysis, *AWS Academy Data Analytics* requires a strong foundation in IT concepts and skills and contains seven-and-a-half hours of content.

BILDUNGSWERK DER BAYERISCHEN WIRTSCHAFT gGmbH

Address : BBW gGmbH Schleizer Str. 5-7,
Hof / Saale, Bavaria - 95028
Germany

Website : bbw-international.com

Company Description:

The Bildungswerk der Bayerischen Wirtschaft (bbw) gGmbH has been qualifying and supporting people and companies in Bavaria and abroad for decades through professional development and educational services. With 21 locations and around 27,000 participants from over 4,000 companies every year, bbw is the leading provider of educational services in Bavaria. Due to this experience and the knowledge of different industries, bbw always acts up-to-date, practical and oriented to individual needs. Whether seminar, in-house workshop or e-learning program: The focus of the didactic concept is on sustainable transfer to everyday working life. In this way, participants can apply what they have learned in the long term and benefit from the professional know-how for their careers and everyday working life.

For more than 25 years, the International Division of the bbw has been supporting the development of business associations and, in particular, vocational training in partner countries of German development cooperation in mostly publicly funded projects. The focus is on

- organizational development
- development of vocational training systems
- management of TVET systems
- development of curricula
- systems of interaction between industry and training institutions
- training of trainers
- the use of innovative methods and technologies from the German TVET system
- knowledge transfer
- integration into work
- placement of young people in German companies

bbw works with Indian partners since 2012. The focus of its Indian programs is on knowledge transfer from the successful German TVET system to India. In doing so, bbw always seeks to adapt German experience and knowledge to the Indian context. Among the partners of bbw in India are government ministries, universities, business associations and their member companies, training centres and international organizations.

When learning changes, devices must too.

For successful hybrid learning, devices need to operate as a virtual classroom. A place to learn, find resources, collaborate and submit assignments. Discover how fully-featured and flexible Surface devices support engaging, inclusive and effective hybrid learning experiences.

Surface devices are high powered enough to handle high-definition video conferencing with crisp audio and studio mics. Versatile enough for note taking, sketching, typing, dictating and browsing with a full keyboard, digital pen and touchscreen. And smart enough to be managed, updated and secured remotely by the school, ensuring everyone can enjoy uninterrupted, engaging learning – in any situation.

Crystal clear videoconferencing

Students and faculty won't miss important details during online classes. Surface devices include enhanced dual far-field Studio Mics, Dolby speakers, a sharp PixelSense display and full HD front- and rear-facing cameras.

Study in the way that suits

Students and faculty can take notes, sketch and write equations or character-based languages with Surface Pen. They can also use a full keyboard for assignments, browse with a touchscreen and connect to an external display.

Powerful collaboration

Surface with Microsoft 365 creates a rich platform for collaboration with seamless integration of Teams, Word, PowerPoint, OneNote, Excel, OneDrive and more, enabling students and faculty to communicate, collaborate, co-author and share files from anywhere.

Protect student privacy

Microsoft builds security into Surface devices from silicon to cloud – including built-in firmware protection, Hello sign-in and Windows Defender Antivirus. Schools can update security centrally through Microsoft Endpoint Manager keeping everyone safe online.

Inbuilt learning support

Accessibility features in Windows and Microsoft 365 are optimized for Surface. As well as tools to improve comprehension, students can use voice commands, speech-to-text and have work read aloud (helpful for vision impairment). And automatically generate captions or translate online presentations into different languages.

Centralised device management

Surface devices can be deployed with a zero-touch approach to save time and free up IT teams for higher priorities. There's no on-premises deployment, and IT can reduce provisioning time by pre-installing apps and policies and then re-sealing the image for a new out-of-the-box experience.

Keep learning from anywhere

With up to 15 hours battery life, students and faculty can keep working for longer. They can connect to classes and content with Wifi, share files over Bluetooth or use 4G LTE standard (with optional 4G advanced) on the go.

Extra performance when you need it

With up to 32GB RAM, Surface caters for students and faculty who need extra performance for large video files, animation, machine learning and AI projects, even when working from home.

Inspire learning with a device they'll love

Surface comes in a range of versatile form factors and performance levels for everyone.

Surface Go 3

Perfect for students and faculty, this compact 2-in-1 is ready for hybrid learning with high-definition video and the power to run educational software and apps. To light up the best of Windows 11, Surface Go 3 is optimised for digital pen and touch. It has a faster Intel® Core™ processor, all-day battery, built-in Microsoft security and optional LTE connectivity.

Surface Laptop Go

Students and faculty will find everything they need in the Laptop Go. A full-sized keyboard, thin profile and slim, lightweight laptop.

They'll be able to collaborate and connect with each other and power through schoolwork with a high-performance Intel processor and all-day battery life*.

Surface Pro 8

The most powerful Pro, Surface Pro 8 transforms from laptop, to tablet, to portable studio, with a larger 13" touchscreen.

It's ideal for faculty or students who want extra power and performance to suit their subject. They can easily open the iconic kickstand and add the full-size Surface Pro Signature Type Cover for a full laptop experience anywhere.

Surface Hub 2S

This powerful collaboration platform helps school bridge the distance for remote learning or simply bringing teams together to brainstorm or learn using a Windows 10 interactive whiteboard. Remote students or teacher can appear in life-sized video. Everyone can participate with a Microsoft Teams-certified mic array and 4K camera.

COLLEGE BOARD

Address : Collegeboard India Global Alliance Llp
Level 2, Crescent Building,
Lado Sarai, Mehrauli,
New Delhi - 110057, Delhi
India

Website : collegeboard.org

Company Description:

College Board is a 100-year-old, mission-driven, not-for-profit organization that connects students to college success and opportunity. Each year, we help more than seven million students prepare for a successful transition to college through programs including:

The SAT Suite of Assessments, an integrated system of tests including the SAT, PSAT/NMSQT, PSAT 10, and PSAT 8/9 that measures what students are learning in class and what they need to succeed in college and beyond.

Advanced Placement® (AP) gives students the chance to tackle college-level work while they're still in high school—whether they're learning online or in the classroom. And through taking AP Exams, students can earn college credit and placement.

Today, the membership association is made up of over 6,000 of the world's leading educational institutions and is dedicated to promoting excellence and equity in education.

The India Global Higher Education Alliance (IGA) is a group of more than 50 innovative universities in India with a goal to expand access to high-quality higher education to all Indian students and make it easier for them to apply to multiple Indian universities at once with the SAT.

The College Board India Scholars Program presents an opportunity for eligible students from low-income backgrounds to earn full-tuition scholarships.

DAC'S INC

Address : #40, Jaya Sai Towers, 1st & 2nd Floor, Saijan Rao Road,
Parvathipuram, V.V. Puram,
Bengaluru - 560004, Karnataka
India

Website : dacsincstore.in

Company Description:

Dac's Inc came into existence in the year 2006 with the concept of uniform apparels and shoe distributor in the country. Since then, our company is serving various industries including educational institutions, corporates, hospitality and many more.

In the past 16 years, we have grown so far to have independent departments to look after each of the industries.

In concern of the shoes, we are a Zonal Distributor of Puma School Shoes, Liberty School Shoes and ID School Shoes in South India. Some of the prestigious institutions where we distribute School Shoes are Presidency Groups Of Institutions, DPS, St. Joseph's School, SBOA Global School, JGI, The East-West School, and many more.

We not only supply school shoes but produce and supply a wide range of School Uniform collections. Our product line has all the essentials that a school needs to give uniformity to its disciples. We have "Top and Bottom Wear", "Shoes and Socks", Bags and other accessories. Here again, a few more prestigious institutions where we distribute School Uniforms and accessories are BIGI (Bangalore International Group of Institution), The Narayana Group, Innisfree House School, Cambridge School, Shantiniketan, Insight Academy, Vidyashilp Academy and so on.

Each pair of uniform we design and craft are unique in themselves. To produce such an exceptional uniform wears the resources are sourced from the trusted vendors of the country. Here are a few of our fabric partners: Mafatlal, Raymond, QMax World, Roger LaViale and so on.

We have a successful track record of delivering shoes and uniform to renowned educational institutes in this span of 16 years. We are not only successfully operating our business in the country but we are expanding our business to other Asian countries.

Well, you will be another gem on our crown if you allow us to serve you with your requirement.

EDTECH POLAND FOUNDATION

Address : Hoza,
86 / 410, Warszawa,
MAZOWIECKIE 00-682
Poland

Website : edtechpoland.pl/en/

Company Description:

The concept of the foundation emerged during meetings of representatives of Polish companies during EdTech events abroad. From the initial, informal cooperation and friendly advice, we decided to create an official representation of the industry. As the agents responsible for initiating the foundation, we have a strong belief that the outcome of the partnership will be fruitful.

The EdTech Poland Foundation was established in an agreement with educational experts and Polish innovative companies from the educational technology sector. The Foundation focuses on promoting the technological development of education in order to adapt teaching methods to the changing world. The events organized by the Foundation aim to bring together different worlds: education, public institutions, innovative business, and science. Its mission is to raise the skills of the teaching staff and to seed a passion for science and technology in students.

The Foundation represents the edtech industry abroad and assists in the international expansion of Polish educational start-ups. The Foundation is a partner of organizations like the International Society for Technology in Education, European Schoolnet and European Edtech Alliance, and India Didactic Association.

EDUCATION DESIGN INTERNATIONAL

Address : 590, 12th Main,
Indiranagar,
Bangalore - 560038, Karnataka
India

Website : educationdesign.in

Company Description:

Education Design International (EDI) is a global team of architects and educators dedicated to planning and designing school facilities for today and tomorrow with one primary goal in mind — to improve learning.

EDI is recognized internationally as the leader for innovative educational facilities planning and design. EDI has provided consulting services to local, regional and national governments, school districts and other educational clients in 54 countries on 6 continents. Principals of the firm have published dozens of important pieces in architectural and educational journals; written best-selling books, including *Blueprint for Tomorrow*, published by Harvard Education Press; and won several major industry awards for excellence, including the topmost honor for school design worldwide — James D MacConnell Award.

EDI's design philosophy focuses on developing a symbiotic relationship between the ecology that surrounds a school and the enhancements to the landscape and built structures necessary for learning. Every element of the landscape and built structure is an opportunity for learning.

EDUCLUSTER FINLAND LTD

Address : Lutakonaukio 7,
Jyväskylä, Keski-Suomi 40100
Finland

Website : educclusterfinland.fi

Company Description:

EduCluster Finland (ECF), University of Jyväskylä Group shares Finnish education experience and know-how through dynamic partnerships across the globe.

All over the world, people are talking about the 'the Finnish phenomenon'. People ask how Finland can consistently top international academic rankings while placing a profound focus on mental and physical well-being.

The resounding success of Finnish education is evidenced by international rankings and benchmarking. Since the first PISA test was performed in 2000, Finland has maintained its top place in reading and science. The ECF approach takes this concept, reinventing it for contexts worldwide.

ECF has been involved in 250+ international projects over the past twelve years. Under the auspices of the University of Jyväskylä, it utilises know-how from a pool of over 5000 experts specializing in multi-disciplinary features of education.

EduCluster Finland specializes in three main areas of focus, establishing Finnish International schools overseas, delivering teacher training and professional development to international institutions, and supporting and delivering innovative approaches to vocational education.

Company Description:

We are the world's leading provider of technical education. As a global partner for educational institutes, governments, public institutions and companies, we design and establish training centres and laboratories, as well as learning systems and training programmes. We systematically prepare skilled professionals for working in dynamic and complex environments.

We offer you state-of-the-art training equipment and teaching materials. Benefit from learning systems with industrial technology from Festo, which are ideally suited for basic and further training in technical professions. Our comprehensive training solutions range from individual learning systems to complete workstations, training packages and training factories to software, e-learning and teachware. Designed for a wide range of technology topics, our solutions cover your specific training needs and help you to convey complex issues in an understandable and practical way.

All of our learning solutions have one thing in common: the aim of practical competence. We are not seeking to teach pure knowledge – we want to equip students to make targeted use of the skills they have acquired in practice. That is why we always combine theory modules with practical training in our training systems. Modern digital learning solutions help you to link both aspects together effectively.

GROK LEARNING PVT. LTD.

Address : Level 3, A Wing, Amba Bhavan,
Plot No. 29, Sion Circle, Sion (East),
Mumbai - 400 022, Maharashtra
India

Website : grokstem.com

Company Description:

Grok Learning Pvt Ltd. was established in 2019. It is founded by entrepreneurs who have successfully launched many innovative technology companies in Silicon Valley, USA and India. These founders with successful track record of launching global companies in the area of Computer Networks, IoT, Manufacturing Automation software, Real Estate tech using Big Data & AI technology, AR & VR, Data Analytics for Retail using AI, Online Music Platform have also pioneered many technology concepts in last two decades.

Grok Learning Pvt. Ltd. is in operation since last 4 years and is supporting many schools and colleges across India to transform theoretical education into Application-based education.

We have seen in last one decade in the world of Knowledge economy that every leading company is driven by technology innovation. Technology innovation is transforming every industry such as real estate, health care, automobile, finance, agriculture, manufacturing at an accelerated pace. This change is demanding new skill requirements from the next generation to succeed in this new world.

As the skill demand is changing, our education has not changed much and there is a huge gap between academic world and real industry. We need to bridge this gap so students from next generation can get better opportunities in this technology-driven world. We need to move from theoretical learning to Applied Learning and technology has to be integral part of the process.

Grok Learning has created very powerful AI-driven platform which can empower both teachers and students to apply academic concepts using latest technologies like IOT, Robotics, 3D printing, Data Science & AI to solve real world problems. Through unique integrated approach of Academics and Technology, students can become problem solvers, innovators and job creators.

Our mission is to empower millions of students from next generation to be innovators.

GYMI EDUCATION

Address : Virvatulenkuja 2,
Helsinki, FIN 00580
Finland

Website : gymieducation.com

Company Description:

Gymi Education provides you with physical learning environments and activating furniture as well as teacher training, curriculums and content. We want children to be happy, healthy and able to focus in school. That is why we bring balance and motor skill acquisition and well-being into the classroom.

Research shows that balance skill training promotes cognitive learning. The Gymi Education Program is built and designed on this knowledge and on the knowledge of the child's overall development. We give educators important tools to implement natural movement and exercise into the school day. By using these tools we promote children's health, well-being and ability to focus and learn.

Our furniture won the "Best Product to Promote Health, Fitness and Sports in the Classroom" in GESS Dubai 2020.

HURON UNIVERSITY, CANADA

Address : 1349 Western Road,
London, Ontario N6G 1H3
Canada

Website : huronatwestern.ca

Company Description:

Established in 1863, Huron is the founding institution of Western University, one of Canada's Top 8 research focussed universities. We are located in city of London, about 2 hours driving distance from Toronto. Huron provides a university experience that is completely unique to post-secondary institutions in Canada; an undergraduate education that combines liberal arts with business, while prioritising ethical leadership & community engagement as much as academic achievement and career success. Professors provide students with one-on-one mentorship through intentionally small classes and a 11:1 student to faculty ratio, with 30% of students being international. As well, all our programs include advanced research opportunities, experiential learning, guaranteed paid internships, volunteer and international exchange programs that are available to each and every Huron student. We offer some very generous scholarships to students. The majority of Huron alumni hold leadership roles, including those in Canada and the world's most distinguished organizations in business, law, government, technology and more. We are the only university in Ontario to have partnership with Harvard Business School, as we inspire our students to become 'Leaders with Heart'.

KARNATAKA STATE COUNCIL FOR HIGHER EDUCATION (KSHEC)

Address : No. 30, Prasanna Kumar Block,
Y Ramachandra Road, Gandhinagar,
Bengaluru - 560 009, Karnataka
India

Website : kshec.karnataka.gov.in/english

Company Description:

The Government of Karnataka has established Karnataka State Council for Higher Education (KSHEC) as a collective of the Government, Universities, academics and experts with a view to forge a synergic relationship among them by occupying an operational space between the Government and the Universities on one hand and between the Universities and apex level regulatory bodies on the other. The objectives of council are:

- (a) promoting academic excellence and social justice by obtaining academic input for policy formulation and perspective planning;
- (b) ensuring autonomy and better accountability of all institutions of higher education in the State; and
- (c) guiding the growth of higher education in accordance with the socio-economic requirements of the State.

KSHEC is leading the implementation of National Education Policy (NEP 2020) in the state in the space of higher education. It is also the state nodal agency (SNA) for implementation of Rashtriya Uchatar Shiksha Abhiyan (RUSA), a central government scheme for higher education.

KINDIEDAYS

Address : Särkiniementie 21 B 3,
Helsinki, Uusimaa - 00210
Finland

Website : kindiedays.com

Company Description:

Kindiedays is an EdTech company from Finland providing a digital solution (SaaS) for preschools and kindergartens. Kindiedays Pedagogical Management Solution consists of mobile and web apps for educators, families and the management of an early education center or chain. The solution has been delivered to 22 countries and meets the pedagogical objectives of NEP2020 in India.

Kindiedays provides the pedagogical foundation for quality Early Childhood Education and Care based on Finnish best practices. Kindiedays is flexibly adapted to national and cultural needs. Just define and add your own learning objectives as the curriculum framework for children's learning.

- Children reach their full potential with playful learning based on world-leading research from Finland.
- Educators observe, document and assess learning efficiently and intuitively, allowing them to save time in assessments.
- Parents follow their children's progress online, appreciating their preschool's excellent care and pedagogical standards.
- Preschools develop the teaching and learning based on formative assessment and automatically collected learning data.
- The preschool can run a successful and competitive business.

In Finland, the basis for high-quality pedagogy is planning and documentation of the child's unique learning journey. Portfolios as formative assessment reflect the learning progress and help children to become powerful learners. Cooperation between home and day care is crucial in the early years. With Kindiedays, any preschool can offer high quality pedagogy and services.

KNOWLEDGE CONSORTIUM OF GUJARAT

Address : Navrangpura,
Ahmedabad - 380015, Gujarat
India

Website : kcg.gujarat.gov.in

Company Description:

Among several initiatives taken by vibrant Gujarat, the Knowledge Consortium of Gujarat established by the Department of Education, stands out prominently as a major response to the very theme of the current century, which is being rapidly characterized as a gateway to the future where the human world family will at last come to create the network of relationships through the harmonizing threads of knowledge. Knowledge has therefore become today the dynamic watchword, and major progressive steps of development are being measured in terms of advancing of knowledge and learning society. Indeed, the Department of Education, Government of Gujarat has manifested eloquently its commitment to the future by creating the Knowledge Consortium of Gujarat. Since the emerging world scenario is marked by various peaks of concentrated knowledge and excellence dotted across the world, it would be imperative for knowledge societies to innovate, cooperate and collaborate with other institutions of knowledge in the world. Such an approach based on collaborating and forming a 'consortium' of knowledge would also tremendously accelerate the pace of development of knowledge in the State.

LAUNCHMYCAREER PVT. LTD.

Address : B - 121, Sector 67,
Noida - 201301, Uttar Pradesh
India

Website : launchmycareer.com

Company Description:

LaunchMyCareer is the world's first youth-focussed career success platform for schools and universities that guides young learners on the path to self-discovery leading them to career success. We help educational institutions carve a career roadmap for learners by enabling them to get a strong foothold in the VUCA (volatile, uncertain, complex, and ambiguous) world of careers, and become confident global citizens. Backed by a successful international presence in the UK, USA, and Canada, LMC aims to enable Indian schools and universities to connect the youth with the dynamic career landscape through a guided process of Self-Discovery, Live Counselling, and Career Discovery in Virtual Reality.

LMC's Career Success Membership Plan (CSMP) is a unique career-linked learning program that promises to be a reliable career guidance partner for educational institutions. With live counselling to guide learners in the process of self-discovery, gamified career assessment tools to make the process uncomplicated and fun, and dedicated career success managers to handhold every step of the way, CSMP is a one-stop solution to enable learners to navigate the future with confidence. Schools get access to a dynamic dashboard providing complete access to monitor, assess and recalibrate learners' career roadmap, customized branding solutions and complete collateral support. Our brand ambassador is India's cricket icon Rahul Dravid - an iconic figure synonymous with commitment and trust, the two pillars which form the core of our brand.

POPCORN FURNITURE

Address : B - 11 Sector - 59,
Noida - 201301, Uttar Pradesh
India

Website : popcornfurniture.com

Company Description:

Popcorn is India's largest educational furniture company, a one-stop shop for equipment for educators. It provides solutions for all the furniture requirements of an educational institution since the last 23 years. Popcorn is the winner of two prestigious awards from World Didac for excellence in school furniture and Silicon India magazine "Brand of the year" award for 2018. Our furniture has been supplied to over 8500 schools in India, UAE, Oman, Nepal, Singapore, Maldives, Saudi Arabia and Africa.

Our objective is to make learning fun and provide ergonomic, safe and functional furniture for students. Our products are innovative as our own design team develops them and they promote collaborative learning by being modular, knocked down and flexible.

We offer many furniture options that accommodate diverse teaching styles. The designs are scientifically created so that each piece attracts, stimulates and educates young minds. Enjoyment is packed in with functionality and the promise of durability. Our design department headed by architects and interior designers assists you in planning the furniture for your institution. We are working with top architects and educational consultants all across India. Our production takes place on state of art German machinery and we have strict quality controls. Popcorn products are available from kindergarten to university level. Our kindergarten range includes furniture for classrooms, role-play equipment like kitchens, supermarkets, puppetry, doll areas, gymnasiums and playground equipment. Our school range includes furniture for classrooms, libraries, cafeterias, laboratories, gymnasiums and playgrounds. We offer customized solutions for schools so that your spaces can be used to the maximum.

Address : QLS Academy Private Limited
49, 50, 51, Cross Rd, Opposite Agrawal Public School,
Bichoil, Sampat Farms, Bicholi Mardana,
Indore - 452016, Madhya Pradesh
India

Website : qlsacademy.com

Company Description:

Vison

To become a Global benchmark in Teaching & Learning by Developing Innovative Technology based solutions, platform, and providing digital content with monitoring methodology for the entire educational ecosystem.

Mission

To provide excellence in education through Information Technology. Aim to define the absolute standard of excellence in the area of academics by imparting a winning attitude in students, delivering quality education, transparency, and honesty in commitment towards students & parents.

Our Platform

Well integrated platform works on following principles

Goal Based Learning

Individual students set their goal. All learning process planning, execution and monitoring is done against this fixed goal. Students, teachers, management and parents are aware of how far they are from this goal and necessary steps required to achieve it.

Real Time Monitoring

Our unique real time monitoring platform automatically tracks course coverage (from teacher's smartboard) along with student's learning in classes (from clickers/tablets). System auto reports them back to top management.

Integrated System

System is integrated well in school ERP, automatically fetching data to and from the ERP. Our ERP system contains multiple modules (Admissions, Fees, Notice & Event, Bus Tracking, Inventory, Attendance, Reports, Staff Management etc..)

Easy to Use

Well integrated with the teacher's smart board, student's clicker & lecture plan. In just 3 steps teachers can conduct classes.

READON ! ORANGE NEUROSCIENCES

Address : 623 Fortune Cres. #100,
Kingston, Ontario K7P 2A4
Canada

Website : orangeneurosciences.ca

Company Description:

Orange Neurosciences has developed an ML/AI-backed SaaS platform for Special Education (ReadON.ai) and English Fluency Enhancement (ELLA.ai). ReadON.ai can be implemented school-wide to enhance the cognitive skills of all students and, more specifically, improve the mental wellness and self-confidence of struggling learners due to Dyslexia, LD, ADHD and Autism. ELLA.ai has applications for students aspiring to complete TOEFL/IELTS or improve skills for advanced professional exams/career opportunities.

Competitive Advantages

ReadON.ai uses game-based software and neuroplasticity to improve Cognitive Skills in a very short duration. ReadON.ai is scalable and can be used in a remote environment providing teachers with an opportunity to help more students with limited resources.

Objectives at DIDAC India

Orange Neurosciences is interested in gaining access to the Indian School Market, partnering with School groups to provide ReadON services to all students as part of the curriculum or after-school programs, and research collaborations. Orange also seeks distributors and channel partners to take this revolutionary technology to the masses.

SAMSUNG INDIA ELECTRONICS PVT. LTD.

Address : 20th Floor, DLF Two Horizon,
Gurgaon - 122001, Haryana
India

Website : samsung.com/in/business/

Company Description:

Samsung has been India for 26 years, starting its operations in 1995.

Today, it is India's largest consumer electronics company and one of India's biggest consumer facing companies by revenue. It is also the country's leading brand of smartphones, televisions, air-conditioners, refrigerators, microwave ovens and washing machines.

Over the years, Samsung has established two state-of-the-art manufacturing facilities, five Research & Development Centres and one Design Centre, which produce world-class products.

Samsung is also one of India's biggest job creators, providing employment to over 70,000 people across the country. Samsung's R&D Centre in Bangalore is the biggest research centre for the company, outside Korea. It has also set up India's largest 4G network and a compressor manufacturing facility at Sriperumbudur.

Samsung's popularity in India is on account of its relentless focus on consumer-centric innovations. While the Company has been engaged in 'Make in India' for the last 26 years, it has consistently backed its manufacturing prowess with cutting edge R&D. The Company believes in deep consumer insights, which are incorporated in future product development.

In 2018, Samsung set up the World's Largest Mobile Factory in Noida, committing an investment of INR 4,915 crore. This facility was inaugurated by Hon'ble Prime Minister Shri Narendra Modi.

The same year, Samsung also opened the World's Largest Mobile Experience Centre at the iconic Opera House in Bengaluru.

As Samsung completed 25 years in India, it launched a new vision called Powering Digital India that will set the course for India's future growth, in which Samsung will continue to be the strongest partner.

SKILLIOMA - BEYOND TEXTBOOKS

Address : 4th Floor, Sreshta Marvel, Gachibowli - Miyapur Rd,
P Janardhan Reddy Nagar, Gachibowli,
Hyderabad - 500081, Telangana
India

Website : skillioma.com

Company Description:

Skillioma is founded by two passionate edupreneurs; Deepa & Harish Thatikonda, with a sheer passion for providing relevant education to the youth. After studying and working in the US for two decades, they are back to their roots to embark on this meaningful venture of providing the most needed education for the youth. Skillioma is accredited by America's leading organisation STEM.org for high-quality content and curriculum.

The story behind Skillioma's birth started with our daughters. As they both were born and brought up in the USA, their young minds were curious to learn more about India and her culture, history and school subjects from a real-world perspective. While we as parents satiated their thirst to some extent, we also discovered this could not be practically done by all parents to help them connect the dots. We searched for any such resources and found none that developed holistic learning and out-of-the-box thinking. And we embraced the purpose and launched our flagship programs on holistic learning skill programs.

We were thrilled to see NEP 2020 come up with the same vision for holistic learning a few months later. We are proud that our digital programs are running successfully in schools.

SMART SCHOOL ERP - COMPLETE CAMPUS MANAGEMENT SYSTEM

Address : Akira Software Solutions Pvt. Ltd.
Module No. 432 - 435, 4th Floor, Nila Building,
Technopark Campus,
Trivandrum - 695581, Kerala
India

Website : smartschoolerp.com

Company Description:

Welcome to Smart School ERP Software!!

Smart School ERP is a comprehensive School Management System for educational institutions like colleges and schools. Smart School is a common online platform where students, teachers, and parents can come together. It helps these institutions to manage their activities online. It is a platform where all school-related projects and activities will be recorded and stored. It is a cloud-based solution that can be accessed through both your phone and desktop. The institution administration and data management can be handled by this solution. It saves a lot of time as compared to the traditional administration system which is very cumbersome. It is also a smarter and cheaper way of handling data and other activities.

Our expert team of professionals has designed the best School Management System for educational institutions to meet the specific and diverse requirements of schools, colleges, professional institutions, and universities. Our School ERP software is equipped with a dynamic web portal containing individual dashboards for Students, Parents, Teachers, Staff Members, and Management, allowing them to access all pertinent information and communication from a single location.

TAGHIVE INC.

Address : 6 Lyons Range, 3rd Floor,
Unit 4 & 5,
Kolkata - 700001, West Bengal
India

Website : tag-hive.com

Company Description:

TagHive Inc., incorporated on April 25, 2017, is a Samsung funded education technology company with headquarters in South Korea and an office in India. We have 22 registered patents and trademarks, and ten others are pending. Our solutions are used in over 1,300 schools (adding 2-3 schools daily), and over 350,000 students have downloaded the Class Saathi self-assessment solution.

Class Saathi is a clicker based smart classroom solution that makes formative assessments seamless and data-driven. Teachers can use the Class Saathi app to evaluate students' proficiency in various concepts taught in class.

Administrators and Parents can also see this learning data on their respective applications. Class Saathi has over 25,000 multiple choice questions on Maths & Science aligned to the CBSE curriculum for students of Classes 6-10. Over 6.6 million questions have been solved on Class Saathi as of June 2022.

Aligned to the New Education Policy's micro-learning objectives and continuous assessments, our "Data First" approach ensures greater accountability at all levels. Class Saathi is very affordable and does not require schools to upgrade their infrastructure. "No internet" and "No electricity" are no longer the limiting factors in making classrooms smart.

TASSOMAI

Address : 503, The Pill Box,
London, Greater London E2 6GG
United Kingdom

Website : www.tassomai.com

Company Description:

Tassomai is an award-winning adaptive software that provides schools/students with essential knowledge practice in core subjects at KS3 and KS4 (including science, maths and English). It ensures students embed and practise knowledge daily and gives teachers and school leaders rich data on engagement and activity.

The program has been used by hundreds of schools in the UK (and international schools) to boost grades at GCSE / iGCSE and to close the attainment gap. Tassomai's impact data shows that students of all abilities improve in their academic performance as they use Tassomai, but the effect is even stronger for learners with lower initial attainment.

Originally built as an adaptive quizzing program for GCSE science, Tassomai is continually evolving, with more subjects and new functionality added each year. In 2023 Tassomai will add 3 new subjects: geography, history & computer science!

As well as personalised quizzes, Tassomai also includes short explainer videos, interactive learning visualisations and links to carefully curated external resources.

Tassomai is actively seeking to work with schools in India that might benefit from using the program with their students. Initially these schools are likely to be those following the iGCSE curriculum or a curriculum closely aligned to GCSEs.

TORRINS MUSIC EDUCATION

Address : Torrins Anthem Pvt. Ltd.
B - 32 Industrial Estate, IDC,
Mehrauli Road,
Gurgaon - 122001, Haryana
India

Website : school.torrins.com

Company Description:

Torrins, a 10-year-old US-based Music Company, in partnership with Ehsaan Noorani (of Shankar-Ehsaan-Loy fame) is pleased to introduce in India a novel music education program custom-developed for schools.

Our core objective is to impart formal music education to children. We designed this program with the aim of building confidence, empathy, imagination, focus, and team skills in children.

We offer guitar, piano, drums, ukulele, and vocals training. Each program is tailored to suit the school's music requirement with some essential basics designed by our team of veteran musicians with rich teaching experience. Torrins will provide fully-trained and knowledgeable music instructors to teach the instruments as part of the curriculum within school time.

The TORRINS team has designed its own curriculum based on the best practices in music from all around the world. All subjects have 8 levels (books), each level corresponding to approximately 1 year of learning.

The program is structured such that lessons in the first year start from the very basics and progressively increase in depth, expertise, and skill level.

Examinations and tests will be conducted per the school's customized schedule.

VALIDATEME.ONLINE

Address : Affidabile
A - 8, Sector - 68,
Noida - 201309, Uttar Pradesh
India

Website : validateme.online

Company Description:

ValidateMe.Online is the most trustworthy and seamless end-to-end solution to create, issue, and manage digital credentials in a few clicks. Our blockchain-based digital certificates and badges make it possible for institutions to recognise students' accomplishments, for individuals to demonstrate their skills, and for hiring managers to identify the most suitable candidates.

Digital Credentials: Leading the way for Innovation in Education

Grades have forever been the primary focus and we have banked on this sub-optimal representation of a student's potential. It worked well in the past, with standardized degrees and limited career options. That's not how the world operates anymore. Degrees today are merely a starting point. Organizations offer specialized roles and make hiring top talent their prerogative by substituting degree-based hiring with skill-based hiring. Online Learning Platforms are fast becoming part of mainstream education for earning specialized qualifications.

Given the diversification of employment opportunities and the emergence of new professions, individuals are becoming increasingly perplexed about the path they should take to attain their career objectives.

This is where ValidateMe.Online takes the center stage. Digital credentials are augmented with metadata for students to discern which credentials to take to unlock career goals. They are also a crucial part of any hiring process as skills can easily be verified online.

Vasa for Quality, And Prompt Service

VDOCIPHER

Address : Vdocipher Media Solutions
91 Springboard, Building Number - 145,
Sector - 44,
Gurugram - 122003, Haryana
India

Website : vdocipher.com

Company Description:

Video Hosting With Piracy Protection

VdoCipher provides innovative video tech solutions for education and media businesses to help them stream content on their website/app in a most secure and smooth manner. The key features include the highest security from video piracy through DRM encryption and watermarking technologies, and they ensure the smoothest streaming at slow connections due to optimized encoding at lower sizes. This helps businesses to earn maximum revenues from their content and ensure the best user experience even in Tier 2, and 3 cities.

VdoCipher is currently serving 2000+ customers across 40+ countries on all 6 continents. VdoCipher is a proud winner of the best video security award by Streaming Media Magazine, Europe.

The complete package features include AWS cloud hosting, smart video player, dashboard, and APIs to manage and integrate content and offline secure playback in mobile apps.

VdoCipher envisions the internet as a place with rich and quality content, where the artists and course creators are not afraid to share their creations with the world, an internet where the contributors are recognized and have an incentive for creating great content.
